# **2001 Annual Report**

## **Englewood Neighborhood Redevelopment Project Area**

**Pursuant to 65 ILCS 5/11-74.4-5(d)**

***JUNE 30, 2002***

---

June 30, 2002

Ms. Alicia Mazur Berg  
Commissioner  
Department of Planning and Development  
121 N. LaSalle St.  
Chicago, Illinois 60602

Dear Commissioner:

Enclosed is the annual report for the Englewood Neighborhood Redevelopment Project Area, which we compiled at the direction of the Department of Planning and Development pursuant to Section 5(d) of the Illinois Tax Increment Allocation Redevelopment Act (65 ILCS 5/11-74.4-1 et seq.), as amended. The contents are based on information provided to us by Chicago Departments of Planning and Development, Finance, and Law. We have not audited, verified, or applied agreed upon accounting and testing procedures to the data contained in this report. Therefore, we express no opinion on its accuracy or completeness.

It has been a pleasure to work with representatives from the Department of Planning and Development and other City Departments.

Very truly yours,

Ernst & Young LLP

Commissioner

## **Englewood Neighborhood Redevelopment Project Area 2001 Annual Report**

---

### **(1) DATE OF DESIGNATION AND TERMINATION - 65 ILCS 5/11-74.4-5(d)(1.5)**

The Project Area was designated on June 27, 2001. The Project Area may be terminated no later than June 27, 2024.

## **Englewood Neighborhood Redevelopment Project Area 2001 Annual Report**

---

### **(2) AUDITED FINANCIALS - 65 ILCS 5/11-74.4-5(d)(2)**

During 2001, no financial activity or cumulative deposits over \$100,000 occurred in the Project Area. Therefore, no audited statements were prepared pertaining to the Special Tax Allocation Fund for the Project Area.

## ***1. Executive Summary***

In February 2000, *S. B. Friedman & Company* was engaged by the City of Chicago (the “City”) to conduct a Tax Increment Financing Eligibility Study and prepare a Redevelopment Plan and Project (the “Redevelopment Plan”) for the Englewood neighborhood on the southwest side of Chicago. This report details the eligibility factors found within the Englewood Neighborhood Redevelopment Project Area (the “RPA”) Tax Increment Financing (“TIF”) District in support of its designation as a “blighted area” within the definitions set forth in the Illinois Tax Increment Allocation Redevelopment Act, 65 ILCS 5/11-74.4-1 et seq., as amended (the “Act”). This report also contains the Redevelopment Plan and Project for the Englewood Neighborhood RPA.

The Englewood Neighborhood RPA is located within the Englewood and West Englewood community areas. It consists of 7,477 tax parcels on 226 blocks and contains approximately 1,200 acres of land. Of the 7,477 tax parcels, approximately 2,201 are vacant. Therefore, the area contains approximately 5,276 improved parcels of land.

### ***Determination of Eligibility***

This report concludes that the Englewood Neighborhood RPA is eligible for TIF designation as a “blighted area” because the following eligibility factors for improved property have been found to be present to a major extent:

- Deterioration;
- Structures Below Minimum Code Standards;
- Excessive Vacancies;
- Inadequate Utilities; and
- Lack of Growth in Equalized Assessed Value

Additionally, three eligibility factors for vacant land are present to a major extent. Although the improved property factors were used to establish eligibility for the RPA, the presence of a sufficient number of eligibility factors among the vacant land contained within the RPA highlights the substantial negative influence that this land has upon the growth and development of the area. These factors are:

- Deterioration of Structures or Site Improvements in Neighboring Areas Adjacent to the Vacant Land;
- Diversity of Ownership; and
- Lack of Growth in Equalized Assessed Value.

### ***Redevelopment Plan Goal, Objectives, and Strategies***

The overall goal of the TIF Redevelopment Plan is to reduce or eliminate conditions that qualify the Englewood Neighborhood RPA as a blighted area and to provide the direction and mechanisms necessary to stimulate the redevelopment of vacant parcels, increase home ownership opportunities,

and provide rehabilitation assistance to neighborhood residents. Redevelopment of the RPA will restore the neighborhood fabric and arrest the trend of deterioration through the redevelopment of vacant parcels for new housing and the rehabilitation of existing properties. This goal is to be achieved through an integrated and comprehensive strategy that leverages public resources to provide assistance to neighborhood residents and stimulate additional private investment.

**Objectives.** Eight (8) broad objectives support the overall goal of area-wide revitalization of the Englewood Neighborhood RPA. These include:

1. Facilitate the assembly, preparation, and marketing of vacant and underutilized sites for infill housing development, including the conveyance of City-owned vacant lots at minimal prices to adjoining residents for maintenance and the reactivation of parcels whose potential redevelopment has been hindered by tax delinquencies;
2. Create opportunities for the development of new affordable housing by providing assistance to qualified developers to help make the purchase price of new homes affordable to community residents, thereby increasing home ownership in the RPA and stimulating construction in areas previously bypassed by new development;
3. Enhance neighborhood appearance and improve the quality of the existing housing stock by leveraging TIF funds to provide assistance to support rehabilitation of residences in the RPA;
4. Create a physical environment which is conducive to the development of new housing through the replacement or repair of infrastructure where needed, including sidewalks, streets, curbs, gutters, underground water and sanitary systems, and viaducts to improve the overall image of the neighborhood and to support new development and redevelopment in the RPA;
5. Encourage new neighborhood-level commercial uses and light industrial development in appropriate locations along major thoroughfares such as 59<sup>th</sup> Street, 63<sup>rd</sup> Street, and Halsted Street so as to promote local shopping opportunities and job creation for area residents;
6. Promote opportunities for women-owned, minority-owned, and locally owned businesses to share in the job and construction opportunities associated with the redevelopment of the Englewood Neighborhood RPA;
7. Support job training programs and increase employment opportunities, including welfare-to-work programs and construction job training programs, for area residents and individuals working in area businesses that will build capacity in the local employment base and support the economic revitalization of the RPA; and
8. Coordinate the goals of this redevelopment plan with the goals and objectives of other underlying redevelopment plans and planning studies where, appropriate, and coordinate available federal, state, and local resources, as appropriate.

**Strategies.** These objectives will be implemented through five (5) specific and integrated strategies. These include:

1. **Assist Existing Residents and Businesses.** The City may provide assistance to support existing residents and businesses in the RPA. This may include financial or other assistance to homeowners and/or landlords of small and large apartment buildings for rehabilitation, leasehold improvements, new construction, and the provision of affordable housing units. TIF-based assistance may be used independently or with other housing programs to lower the cost of housing to a level that is affordable to low- and moderate-income households. Resources may also be available to businesses for job training, welfare-to-work, and day care assistance. In addition, to the extent allowable under the law, locally-owned businesses and residents will share in the employment, job, and construction-related opportunities that may be offered by redevelopment within the Englewood Neighborhood RPA.
2. **Facilitate Property Assembly, Demolition, and Site Preparation.** Vacant and underutilized sites listed in Appendix 3 may be acquired and assembled by the City to attract future private investment and development. The consolidated ownership of these sites will make them easier to market to potential developers and will streamline the redevelopment process. In addition, assistance may be provided to private developers seeking to acquire land and assemble sites in order to undertake projects supportive of this Redevelopment Plan.
3. **Develop Vacant and Underutilized Sites.** The redevelopment of vacant and underutilized sites within the Englewood Neighborhood RPA is expected to stimulate private investment and enhance the RPA. Development of vacant and underutilized sites is anticipated to have a positive impact on other properties beyond the individual project sites.
4. **Encourage Private Sector Activities and Support New Development.** Through the creation and support of public-private partnerships, or through written agreements, the City may provide financial and other assistance to encourage the private sector, including local property owners and businesses, to undertake rehabilitation and redevelopment projects and other improvements that are consistent with the goals of this Redevelopment Plan.

The City requires that developers who receive TIF assistance for market-rate housing set aside 20% of the units to meet affordability criteria established by the City's Department of Housing. Generally, this means that affordable for-sale housing units should be priced at a level that is affordable to persons earning no more than 120% of the area median income, and affordable rental units should be affordable to persons earning no more than 80% of the area median income. TIF funds can also be used to pay for up to 50% of the cost of construction and up to 75% of interest costs for new housing units to be occupied by low-income and very low-income households as defined in Section 3 of the Illinois Affordable Housing Act.

5. **Implement Public Improvements.** A series of public improvements throughout the Englewood Neighborhood RPA may be designed and implemented to help define and create an identity for the area, prepare sites for anticipated private investment, and create a more conducive environment for retail, commercial, and residential development. These

improvements may include new streetscaping, street and sidewalk lighting, resurfacing of alleys, sidewalks and streets, improvement of underground water and sewer infrastructure, creation of parks and open space, and other public improvements consistent with the Redevelopment Plan. These public improvements may be completed pursuant to redevelopment agreements with private entities or intergovernmental agreements with other public entities, and may include the construction, rehabilitation, renovation, or restoration of public improvements on one or more parcels.

### ***Required Findings***

The conditions required under the Act for the adoption of the Redevelopment Plan and Project are found to be present within the Englewood Neighborhood RPA.

While some market-based investment has occurred in the Englewood Neighborhood RPA over the last five years, this investment has been minimal in scope and has not been part of any coordinated development strategy. From 1994 to 1999, the growth of equalized assessed valuation ("EAV"), which is the value of property from which property taxes are based, in the Englewood Neighborhood RPA has lagged behind that of the City of Chicago, and it has actually declined four (4) of five (5) years. The compound annual growth rate of EAV in the Englewood Neighborhood RPA was 0.6% between 1994 and 1999. This is nearly 84% lower than the 3.67% growth experienced by the City of Chicago during this period.

To further investigate a lack of growth and private investment within the Englewood Neighborhood RPA, *S. B. Friedman & Company* examined building permit data provided by the City of Chicago Department of Buildings for the period of January 1995 to November 2000. This data revealed that 1,360 permits totaling nearly \$56 million were issued within the Englewood Neighborhood RPA during this period. Approximately 426 of these permits were for building demolition and 110 were for Code Compliance. The remaining 824 permits (roughly \$52 million) were for new investment. This includes 159 permits for new construction and 665 permits for rehabilitation, mechanical upgrades, or minor repairs not in response to code violations. Of this new investment, approximately \$45 million (86.5%) was either publicly initiated or associated with property which has some level of public subsidy, including new affordable housing, a new public transit station, and repairs, alterations, or expansion of publicly owned buildings. Overall, it is estimated that only about \$7 million of the \$52 million in new investment (excluding demolitions and Code Compliance permits) in the RPA (13.5%) was completed by the private sector on its own, without public mandate or subsidy. This represents roughly \$1.2 million per year, or approximately 0.84% of the total market value of all property within the TIF district. At this rate, it would take a substantial amount of time to replace all of the existing value in the RPA.

Without the support of public resources, the redevelopment objectives of the Englewood Neighborhood RPA would most likely not be realized. The scope of area-wide improvements and development assistance resources needed to rehabilitate the Englewood Neighborhood RPA as a viable residential district will be extensive and costly, and the private market, on its own, is not likely to absorb all of these costs. Resources to assist with site assembly and preparation, public infrastructure improvements, and private property rehabilitation are needed to leverage private

investment and facilitate area-wide redevelopment consistent with the Redevelopment Plan. TIF funds will be used to fund land assembly, site preparation, infrastructure improvements, and building rehabilitation. Accordingly, but for creation of the Englewood Neighborhood RPA, these projects, which would contribute substantially to area-wide redevelopment, are unlikely to occur without TIF designation for the Englewood Neighborhood RPA.

Third, the Englewood Neighborhood RPA includes only those contiguous parcels of real property that are expected to substantially benefit from the proposed Redevelopment Plan Improvements.

Finally, the proposed land uses described in this Redevelopment Plan will be approved by the Chicago Plan Commission prior to its adoption by the City Council. The redevelopment opportunities identified in earlier area planning initiatives will be substantially supported and their implementation facilitated through the creation of the Redevelopment Plan.

## 2. Introduction

### *The Study Area*

This document serves as the eligibility study (“Eligibility Study”) and Redevelopment Plan and Project for the Englewood Neighborhood Redevelopment Project Area. The Englewood Neighborhood RPA is located within the Englewood and West Englewood community areas of the City of Chicago (the “City”), in Cook County (the “County”). In February 2000, *S. B. Friedman & Company* was engaged by the City to conduct a study of certain properties in this neighborhood to determine whether the area containing these properties would qualify for status as a “blighted area” and/or “conservation area” under the Act.

The community context of the Englewood Neighborhood RPA is detailed on Map 1.

The Englewood Neighborhood RPA consists of 7,477 tax parcels with approximately 3,991 buildings on 226 blocks and contains approximately 1,200 acres of land. Of the 7,477 tax parcels, approximately 2,201 are vacant. Therefore, the area contains approximately 5,276 improved parcels of land. The RPA is roughly rectangular in shape and is generally bounded by Garfield Boulevard and West 59<sup>th</sup> Street on the north; South Halsted Street and the Dan Ryan Expressway (Interstate 90/94) on the east; Marquette Road on the south; and South Loomis Street on the west. The existing Englewood Mall Redevelopment Project Area, established in 1989 and centered around the intersection of South Halsted and West 63<sup>rd</sup> Streets, is not included in the Englewood Neighborhood RPA boundaries.

Map 2 details the boundary of the Englewood Neighborhood RPA which includes only those contiguous parcels of real property that are expected to substantially benefit from the Redevelopment Plan improvements discussed herein. The boundaries encompass a predominantly single-family and two- and three-flat residential area containing a small amount of commercial, public/institutional, and light industrial land use that serves the residential uses. As a whole, the area suffers from inadequate utilities, deteriorated buildings and infrastructure, and large amounts of vacant land whose redevelopment potential is hindered by existing adjacent deterioration and diversity of ownership among the many parcels. Without a comprehensive approach to address these issues, the RPA could continue its decline, thereby discouraging future development opportunities. The redevelopment plan addresses these issues by providing resources for repairs and improvements to the area’s infrastructure and public facilities and for the assemblage and marketing of vacant land. These area-wide improvements will benefit all of the property within the RPA.

Appendix 1 contains the legal description of the Englewood Neighborhood RPA.

The Eligibility Study covers events and conditions that exist and that were determined to support the designation of the Englewood Neighborhood RPA as a “blighted area” under the Act at the completion of our research on October 10, 2000 and not thereafter. These events or conditions include, without limitation, governmental actions and additional developments.

This Eligibility Study and Redevelopment Plan summarizes the analysis and findings of the

consultant's work, which, unless otherwise noted, is solely the responsibility of *S. B. Friedman & Company*. The City is entitled to rely on the findings and conclusions of the Redevelopment Plan in designating the Englewood Neighborhood RPA as a redevelopment project area under the Act. *S. B. Friedman & Company* has prepared this Redevelopment Plan with the understanding that the City would rely (1) on the findings and conclusions of the Redevelopment Plan in proceeding with the designation of the Englewood Neighborhood RPA and the adoption and implementation of the Redevelopment Plan, and (2) on the fact that *S. B. Friedman & Company* has obtained the necessary information including, without limitation, information relating to the equalized assessed value of parcels comprising the Englewood Neighborhood RPA, so that the Redevelopment Plan will comply with the Act and that the Englewood Neighborhood RPA can be designated as a redevelopment project area in compliance with the Act.

### *History of Area<sup>1</sup>*

The Englewood Neighborhood RPA is located within two (2) community areas located on the South Side of the City of Chicago. Most of the Englewood Neighborhood RPA is located within the Englewood Community Area which is generally bounded by 55<sup>th</sup> Street on the north; 75<sup>th</sup> and 78<sup>th</sup> Streets on the south; Vincennes Avenue and the Dan Ryan expressway on the east; and Racine Avenue on the west. Roughly one-fifth of the Englewood RPA is located within the West Englewood Community Area which is generally bounded by 55<sup>th</sup> Street on the north; 75<sup>th</sup> Street on the south; Racine Avenue on the east; and the Penn Central and St. Louis Railroad tracks on the west.

**Englewood.** Settlement of the Englewood Community Area began in the 1850s on what was largely heavy forest until the introduction of the Michigan, Southern and Northern Indiana Railway. The first settlement, Junction Grove, which later became part of the Town of Lake, was renamed Englewood in 1868 after Englewood, New Jersey, a similarly heavily forested area. Englewood remained a sparsely-settled area of German, Irish, and Scottish immigrants (mainly attracted to the area by work on the emerging railroads) until the late 1880s when the Town of Lake, including Englewood, was annexed by the City of Chicago. The Columbian Exposition was an impetus for further development in the area and by 1905 Englewood had become residentially mature with both single and multi-family dwellings. In the early 1900s, a bustling commercial corridor developed at 63<sup>rd</sup> and Halsted and grew throughout the early part of the 20<sup>th</sup> century, due in part to the corridor's accessibility by the newly introduced elevated and inter-urban transit lines.

By the late 1930s, Englewood was a neighborhood of striking contrasts. Younger, upwardly mobile white collar workers occupied the apartment complexes to the east of Halsted Street while working class families lived in the numerous small homes west of Halsted. Along Wentworth Avenue, housing maintenance and values were already showing signs of decline as much of the housing had not been updated since Englewood's inception in the 1870s. Despite the Great Depression, Englewood's population continued to grow reaching nearly 93,000 by 1940. This consisted mainly

---

<sup>1</sup> Information on the history of the West Englewood and Englewood communities were derived from the Local Community Fact Book Chicago Metropolitan Area 1990, edited by the Chicago Fact Book Consortium, (Copyright 1995, Board of Trustees of the University of Chicago) at pages 191-195.

of white individuals of the aforementioned German, Irish, and Scottish descent, as well as many Swedes who began to enter the community in the late 1800s. At this time, there were only a few small African-American districts located at various points along Racine Avenue and Stewart Street.

The African-American population, however, continued to grow throughout the following three decades brought on by overcrowding in the historical Black Belt neighborhoods, steady wages from war-related industry, and improved social conditions. During the 1950s, the influx was so rapid that despite the loss of more than 50,000 area residents, the total population grew, reaching its peak of 97,000.

Throughout this time period, Englewood experienced a steady decline in economic prosperity. As early as the 1930s, new residential development ceased and many of the new residents were unable to maintain the aging, deteriorating buildings. During the 1950s, considerable demolition of housing units occurred, spurred by such City projects as the building of the Dan Ryan expressway along the community's eastern edge.

New competitive shopping areas developed in the nearby communities of Evergreen Park and Chicago Lawn which cut into the region served by Englewood's commercial corridor. By as early as 1960, the blight on the periphery of the commercial shopping district had threatened commercial development. In the 1960s, traffic along Halsted and 63<sup>rd</sup> Streets was diverted around the shopping district to create a pedestrian mall. Unfortunately, this did little to change the shopping climate and major anchor retailers such as Wieboldt's and Sears closed in the mid-1970s.

Recent decades have shown Englewood as a community on a steady downtrend. The community's population has slipped from over 90,000 in 1950 to just 48,000 in 1990, a loss of nearly 50%. Unemployment has soared concurrently with the rate of families living at or below the poverty level. There has been an increase in violence and gang activity, resulting in City-wide record numbers of homicide cases. The commercial corridor continues to struggle, though recent years have seen a slight resurgence of activity and nominal growth in economic prosperity.

**West Englewood.** Originally named Englewood-on-the-Hill because of the high ground along what is now Loomis Street near 69<sup>th</sup> Street, West Englewood was mainly swamp land and forest until 1871 when the Chicago Fire prompted the slow beginnings of growth. Early residents were predominantly working class Germans and Swedes who settled around a Swedish Dry Goods store at what is now the intersection of 63<sup>rd</sup> Street and Ashland Avenues. In 1889, West Englewood was annexed by the City of Chicago as part of the Town of Lake. This, coupled with the Columbian Exposition of 1893 prompted a slight building boom and by 1896 West Englewood was bound to the City of Chicago by streetcar lines and electric trolley.

The early 1900s saw considerable growth in infrastructure development and population. Sewage systems were installed, sidewalks were built, and the elevated train line from the downtown Loop was introduced. Italian immigrants began moving into the area in 1907 and by 1920 the population swelled to over 53,000 residents, most of whom were of German, Irish, and Italian descent. By 1930, this number had grown to nearly 64,000. The small pockets of African-American residents living in and around the area of Loomis and 63<sup>rd</sup> Streets slowly grew, reaching nearly 2,000 in 1930.

Throughout the 1940s and 1950s, West Englewood experienced a noticeable drop in population as numbers of white residents moved farther south and southwest, following the small industries which bordered the community. Concurrently, only a nominal number of African American residents moved in resulting in an overall decrease in population. Throughout the 1960s and 1970s, the population grew slightly; however, it has never reached the population level of past decades.

Today West Englewood is a community with an aging housing stock and infrastructure. Since reaching residential maturity in the 1920s, the housing stock has not been replaced to any appreciable degree. Many of the families that have moved in to the this aging housing stock have not been able to make the substantial improvements needed. Consequently, redevelopment activity is needed to revitalize West Englewood and improve the community's housing and infrastructure.

### ***Existing Land Use***

Based upon *S. B. Friedman & Company's* research, six (6) predominant land uses have been identified within the Englewood Neighborhood RPA:

- Residential;
- Vacant Land;
- Commercial;
- Public/Institutional (including public facilities, religious institutions, and social services);
- Parks/Open Space; and
- Light Industrial.

The existing land use pattern in the Englewood Neighborhood RPA is shown in Map 3. This map represents the predominant land use in the area on a block-by-block basis, or within blocks where significant concentrations exist. The predominant land use displayed is not necessarily the only land use present on a given block. Many of the blocks within the RPA contain more than one land use, especially where there is a mixture of residential and vacant land.

Overall, the Englewood RPA consists primarily of low-density residential land uses, which are found throughout the area as well a large number of vacant parcels and large tracts of vacant land. Commercial uses are located along main thoroughfares such as Halsted Street, 59<sup>th</sup> Street, and 63<sup>rd</sup> Street. Institutional uses are dispersed throughout the RPA and consist mainly of public schools and churches. Public facilities located within the RPA include Chicago Park District parks and playlots, as well as the Chicago Police Department station on Racine Avenue. There are only a few light industrial areas within the RPA.

**Residential.** Most of the Englewood Neighborhood RPA is characterized by lower density residential land use. This consists predominantly of single-family detached homes and two- and three-flat buildings, with some multi-family rental apartment buildings. There are also some low-rise affordable housing developments and a few high-rise housing developments. Most of residential blocks within the RPA contain varying amounts of vacant land.

**Vacant Land.** There is a large amount of vacant land within the Englewood Neighborhood RPA,

most of which consists of small parcels interspersed within the residential blocks. There are also several large tracts of vacant land which are found throughout the RPA.

**Commercial.** Commercial and retail uses are found primarily along Halsted Street (both south of 63<sup>rd</sup> Street and between 61<sup>st</sup> Street and Garfield Boulevard), along 63<sup>rd</sup> Street between Loomis Street and Morgan Street, along 59<sup>th</sup> Street between Loomis Street and Racine Avenue, and in the southeastern corner of the RPA along Wentworth Avenue. Many of the existing commercial properties are currently vacant or underutilized.

**Public/Institutional.** There are a number of public/institutional uses located throughout the RPA. These include numerous churches and religious institutions, twelve (12) Chicago Public School sites, the 7<sup>th</sup> District Chicago Police Department station located on Racine Avenue, the Chicago Public Library Kelly Branch located on Normal Avenue, St. Bernard's Hospital located along West 64<sup>th</sup> Street, Englewood Health Center located on 63<sup>rd</sup> Street, and the Reymar Clinic located on Halsted Street.

**Parks/Open Space.** The RPA contains one large Chicago Park District park, Ogden Park, which is located in the southwestern corner of the RPA between 64<sup>th</sup> Street and Marquette Road. There are also seven (7) additional smaller parks and playlots interspersed throughout the area.

**Light Industrial.** There are only a few light industrial sites interspersed throughout the area, consisting mainly of warehouses, distribution centers, and salvage yards.

### *3. Eligibility Analysis*

#### *Provisions of the Illinois Tax Increment Allocation Redevelopment Act*

Based upon the conditions found within the Englewood Neighborhood RPA at the completion of *S. B. Friedman & Company's* research, it has been determined that the Englewood Neighborhood RPA meets the eligibility requirements of the Act as a blighted area. The following outlines the provisions of the Act to establish eligibility.

Under the Act, two (2) primary avenues exist to establish eligibility for an area to permit the use of tax increment financing for area redevelopment: declaring an area as a “blighted area” and/or a “conservation area.”

“Blighted areas” are those improved or vacant areas with blighting influences that are impacting the public safety, health, morals, or welfare of the community, and are substantially impairing the growth of the tax base in the area. “Conservation areas” are those improved areas which are deteriorating and declining and soon may become blighted if the deterioration is not abated.

The statutory provisions of the Act specify how a district can be designated as a “blighted” and/or “conservation area” district based upon an evidentiary finding of certain eligibility factors listed in the Act. These factors are identical for each designation.

According to the Act, “blighted areas” must have a combination of five (5) or more of these eligibility factors acting in concert which threaten the health, safety, morals or welfare of the proposed district. “Conservation areas” must have a minimum of 50% of the total structures within the area aged 35 years or older, plus a combination of three (3) or more additional eligibility factors which are detrimental to the public safety, health, morals, or welfare and which could result in such an area becoming a blighted area.

#### *Factors For Improved Property*

The thirteen (13) factors are listed at 65 ILCS 5/11-74.4-3 (a) and (b) and are defined in the Act as follows:

**Dilapidation.** An advanced state of disrepair or neglect of necessary repairs to the primary structural components of buildings or improvements in such a combination that a documented building condition analysis determines that major repair is required or the defects are so serious and so extensive that the buildings must be removed.

**Obsolescence.** The condition or process of falling into disuse. Structures have become ill-suited for the original use.

**Deterioration.** With respect to buildings, defects including, but not limited to, major defects in the secondary building components such as doors, windows, porches, gutters and downspouts, and fascia. With respect to surface improvements, that the condition of roadways, alleys, curbs, gutters,

sidewalks, off-street parking, and surface storage areas evidence deterioration including but not limited to, surface cracking, crumbling, potholes, depressions, loose paving material, and weeds protruding through paved surfaces.

**Presence of Structures Below Minimum Code Standards.** All structures that do not meet the standards of zoning, subdivision, building, fire, and other governmental codes applicable to property, but not including housing and property maintenance codes.

**Illegal Use of Individual Structures.** The use of structures in violation of the applicable federal, State, or local laws, exclusive of those applicable to the presence of structures below minimum code standards.

**Excessive Vacancies.** The presence of buildings that are unoccupied or under-utilized and that represent an adverse influence on the area because of the frequency, extent, or duration of the vacancies.

**Lack of Ventilation, Light or Sanitary Facilities.** The absence of adequate ventilation for light or air circulation in spaces or rooms without windows, or that require the removal of dust, odor, gas, smoke, or other noxious airborne materials. Inadequate natural light and ventilation means the absence of skylights or windows for interior spaces or rooms and improper window sizes and amounts by room area to window area ratios. Inadequate sanitary facilities refers to the absence or inadequacy of garbage storage and enclosure, bathroom facilities, hot water and kitchens, and structural inadequacies preventing ingress and egress to and from all rooms and units within a building.

**Inadequate Utilities.** Underground and overhead utilities such as storm sewers and storm drainage, sanitary sewers, water lines, and gas, telephone, and electrical services that are shown to be inadequate. Inadequate utilities are those that are: (i) of insufficient capacity to serve the uses in the redevelopment project area, (ii) deteriorated, antiquated, obsolete, or in disrepair, or (iii) lacking within the redevelopment project area.

**Excessive Land Coverage and Overcrowding of Structures and Community Facilities.** The over-intensive use of property and the crowding of buildings and accessory facilities onto a site. Examples of problem conditions warranting the designation of an area as one exhibiting excessive land coverage are: (i) the presence of buildings either improperly situated on parcels or located on parcels of inadequate size and shape in relation to present-day standards of development for health and safety and (ii) the presence of multiple buildings on a single parcel. For there to be a finding of excessive land coverage, these parcels must exhibit one or more of the following conditions: insufficient provision for light and air within or around buildings, increased threat of spread of fire due to the close proximity of buildings, lack of adequate or proper access to a public right-of-way, lack of reasonably required off-street parking, or inadequate provision for loading and service.

**Deleterious Land Use or Layout.** The existence of incompatible land-use relationships, buildings occupied by inappropriate mixed-uses, or uses considered to be noxious, offensive, or unsuitable for the surrounding area.

**Environmental Clean-Up.** The proposed redevelopment project area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs for, or a study conducted by an independent consultant recognized as having expertise in environmental remediation has determined a need for, the clean-up of hazardous waste, hazardous substances, or underground storage tanks required by State or federal law, provided that the remediation costs constitute a material impediment to the development or redevelopment of the redevelopment project area.

**Lack of Community Planning.** The proposed redevelopment project area was developed prior to or without the benefit or guidance of a community plan. This means that the development occurred prior to the adoption by the municipality of a comprehensive or other community plan or that the plan was not followed at the time of the area's development. This factor must be documented by evidence of adverse or incompatible land-use relationships, inadequate street layout, improper subdivision, parcels of inadequate shape and size to meet contemporary development standards, or other evidence demonstrating an absence of effective community planning.

**Lack of Growth in Equalized Assessed Value.** The total equalized assessed value of the proposed redevelopment project area has declined for three of the last five calendar years prior to the year in which the redevelopment project area is designated or is increasing at an annual rate that is less than the balance of the municipality for three of the last five calendar years for which information is available or is increasing at an annual rate that is less than the Consumer Price Index for All Urban Consumers published by the United States Department of Labor or successor agency for three of the last five calendar years prior to the year in which the redevelopment project area is designated.

As explained, "blighted areas" must have a combination of five (5) or more of these eligibility factors and "conservation areas" must have a minimum of 50% of the total structures within the area aged 35 years or older, plus a combination of three (3) or more additional eligibility factors.

### ***Factors For Vacant Land***

Under the provisions of the "blighted area" section of the Act, if the land is vacant, a combination of two (2) or more of the following six (6) factors also may be identified which combine to impact the sound growth in tax base for the proposed district.

**Obsolete Platting of Vacant Land.** This is where parcels of limited or narrow size or configurations of parcels of irregular size or shape make it difficult to develop on a planned basis and in a manner compatible with contemporary standards and requirements, or where platting has failed to create rights-of-ways for streets or alleys or has created inadequate right-of-way widths for streets, alleys, or other public rights-of-way or has omitted easements for public utilities.

**Diversity of Ownership.** Diversity of ownership is when adjacent properties are owned by multiple parties. This factor applies when the number of owners of parcels of vacant land is sufficient to retard or impede the ability to assemble the land for development.

**Tax and Special Assessment Delinquencies.** Tax and special assessment delinquencies exist or

the property has been the subject of tax sales under the Property Tax Code within the last 5 years.

**Deterioration of Structures or Site Improvements in Neighboring Areas Adjacent to the Vacant Land.** Evidence of structural deterioration and area disinvestment in blocks adjacent to the vacant land may substantiate why new development had not previously occurred on the vacant parcels.

**Environmental Clean-Up.** The area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs for, or a study conducted by an independent consultant recognized as having expertise in environmental remediation has determined a need for, the clean-up of hazardous waste, hazardous substances, or underground storage tanks required by State or federal law, provided that the remediation costs constitute a material impediment to the development or redevelopment of the redevelopment project area.

**Lack of Growth in Equalized Assessed Value.** The total equalized assessed value of the proposed redevelopment project area has declined for three of the last five calendar years prior to the year in which the redevelopment project area is designated or is increasing at an annual rate that is less than the balance of the municipality for three of the last five calendar years for which information is available or is increasing at an annual rate that is less than the Consumer Price Index for All Urban Consumers published by the United States Department of Labor or successor agency for three of the last five calendar years prior to the year in which the redevelopment project area is designated.

Additionally, under the “blighted area” section of the Act, eligibility may be established for those vacant areas that would have qualified as a blighted area immediately prior to becoming vacant. Under this test for establishing eligibility, building records may be reviewed to determine that a combination of five (5) or more of the 13 “blighted area” eligibility factors were present immediately prior to demolition of the area’s structures.

The vacant “blighted area” section includes six (6) other tests for establishing eligibility, but none of these are relevant to the conditions within the Englewood Neighborhood RPA.

### ***Methodology Overview and Determination of Eligibility***

Analysis of eligibility factors was done through research involving an extensive exterior survey of all properties within the Englewood Neighborhood RPA, as well as a review of building and property records. Property records include building code violation citations, building permit data, and assessor information. Our survey of the area established that there are 3,991 buildings within the Englewood Neighborhood RPA. In addition, to verify the age for the area buildings, field observations were compared to the recorded age of the buildings in property records obtained from the Assessor’s office.

The areas located within the Englewood Neighborhood RPA are predominantly characterized by residential structures of varying degrees of deterioration and vacant parcels. Our survey of the area established that there are 5,276 improved parcels and 2,201 vacant parcels within the Englewood Neighborhood RPA. All properties were examined for qualification factors consistent with either

“blighted area” or “conservation area” requirements of the Act. Based upon these criteria, the properties within the Englewood Neighborhood RPA qualify for designation as a TIF Redevelopment Project Area as a “blighted area” as defined by the Act.

To arrive at this designation, *S. B. Friedman & Company* calculated the number of eligibility factors present on a building-by-building or parcel-by-parcel basis and analyzed the distribution of the eligibility factors on a block-by-block basis. When appropriate, we calculated the presence of eligibility factors on infrastructure and ancillary properties associated with the structures. The eligibility factors were correlated to buildings using Sanborn Maps, property files created from field observations, and record searches. This information was then graphically plotted on a block map of the Englewood Neighborhood RPA to establish the distribution of eligibility factors, and to determine which factors were present to a major or minor extent.

Major factors are used to establish eligibility. These factors are present to a meaningful extent on most of the blocks and evenly distributed throughout the RPA. Minor factors are supporting factors present to a meaningful extent on some of the blocks or on a scattered basis. Their presence suggests that the area is at risk of experiencing more extensive deterioration and disinvestment.

While it may be concluded under the Act that the mere presence of the minimum number of the stated factors may be sufficient to make a finding as a blighted area, this evaluation was made on the basis that the blighted area factors must be present to an extent that indicates that public intervention is appropriate or necessary. Secondly, the blighted area factors must be reasonably distributed throughout the RPA so that non-qualifying areas are not arbitrarily included in the RPA simply because of proximity to areas that qualify as a blighted area.

### ***Blighted Area Findings***

As required by the Act, within a blighted area, at least five (5) of the thirteen (13) eligibility factors for improved property must be found present to a major extent within the Englewood Neighborhood RPA.

Our research has revealed that the following five (5) factors for improved property are present to a major extent:

- Deterioration;
- Structures Below Minimum Code Standards;
- Excessive Vacancies;
- Lack of Growth in Equalized Assessed Value; and
- Inadequate Utilities.

In addition, our research has revealed that the following three (3) factors for vacant land are present to a major extent:

- Deterioration of Structures or Site Improvements in Neighboring Areas Adjacent to the

- Vacant Land;
- Diversity of Ownership; and
- Lack of Growth in Equalized Assessed Value.

Although the improved property factors were used to establish eligibility for the RPA, the presence of a sufficient number of eligibility factors among the vacant land contained within the RPA highlights the substantial influence that this land has upon the growth and development of the area.

Based on the presence of these factors, the RPA meets the requirements of a “blighted area” under the Act.

The widespread presence of deterioration of buildings and infrastructure illustrates the level of physical deficiencies within the Englewood Neighborhood RPA. Of the 5,276 improved parcels within the RPA, 1,907 (36%) exhibited deterioration of building or deterioration of infrastructure. This represents a total of more than one (1) out of every three (3) of the improved parcels throughout the RPA with deterioration of building or infrastructure components. Overall, 80%, or more than three (3) out of every four (4) blocks or the portions of the improved blocks included in the RPA exhibit some form of deterioration. In addition, code violation citations have implicated 23% of the buildings within the Englewood Neighborhood RPA between January 1995 and November 2000. Over half the blocks with buildings (60%) within the RPA exhibit structures below minimum code standards to a major extent. This further underscores the documented physical deterioration of buildings throughout the RPA.

A significant number of buildings within the RPA exhibit excessive vacancies, defined as a structure that is at least one-third vacant. Of the 3,991 buildings within the RPA, 413 (10%) are considered to be excessively vacant. A total of 27%, or more than one (1) out of every four (4) of the blocks with buildings in the RPA exhibit this factor to a major extent.

The condition of underground utilities within the RPA is largely inadequate. All (100%) of the blocks within the RPA are serviced by antiquated water mains and sewers that are scheduled for or are overdue for replacement due to insufficient capacity or age.

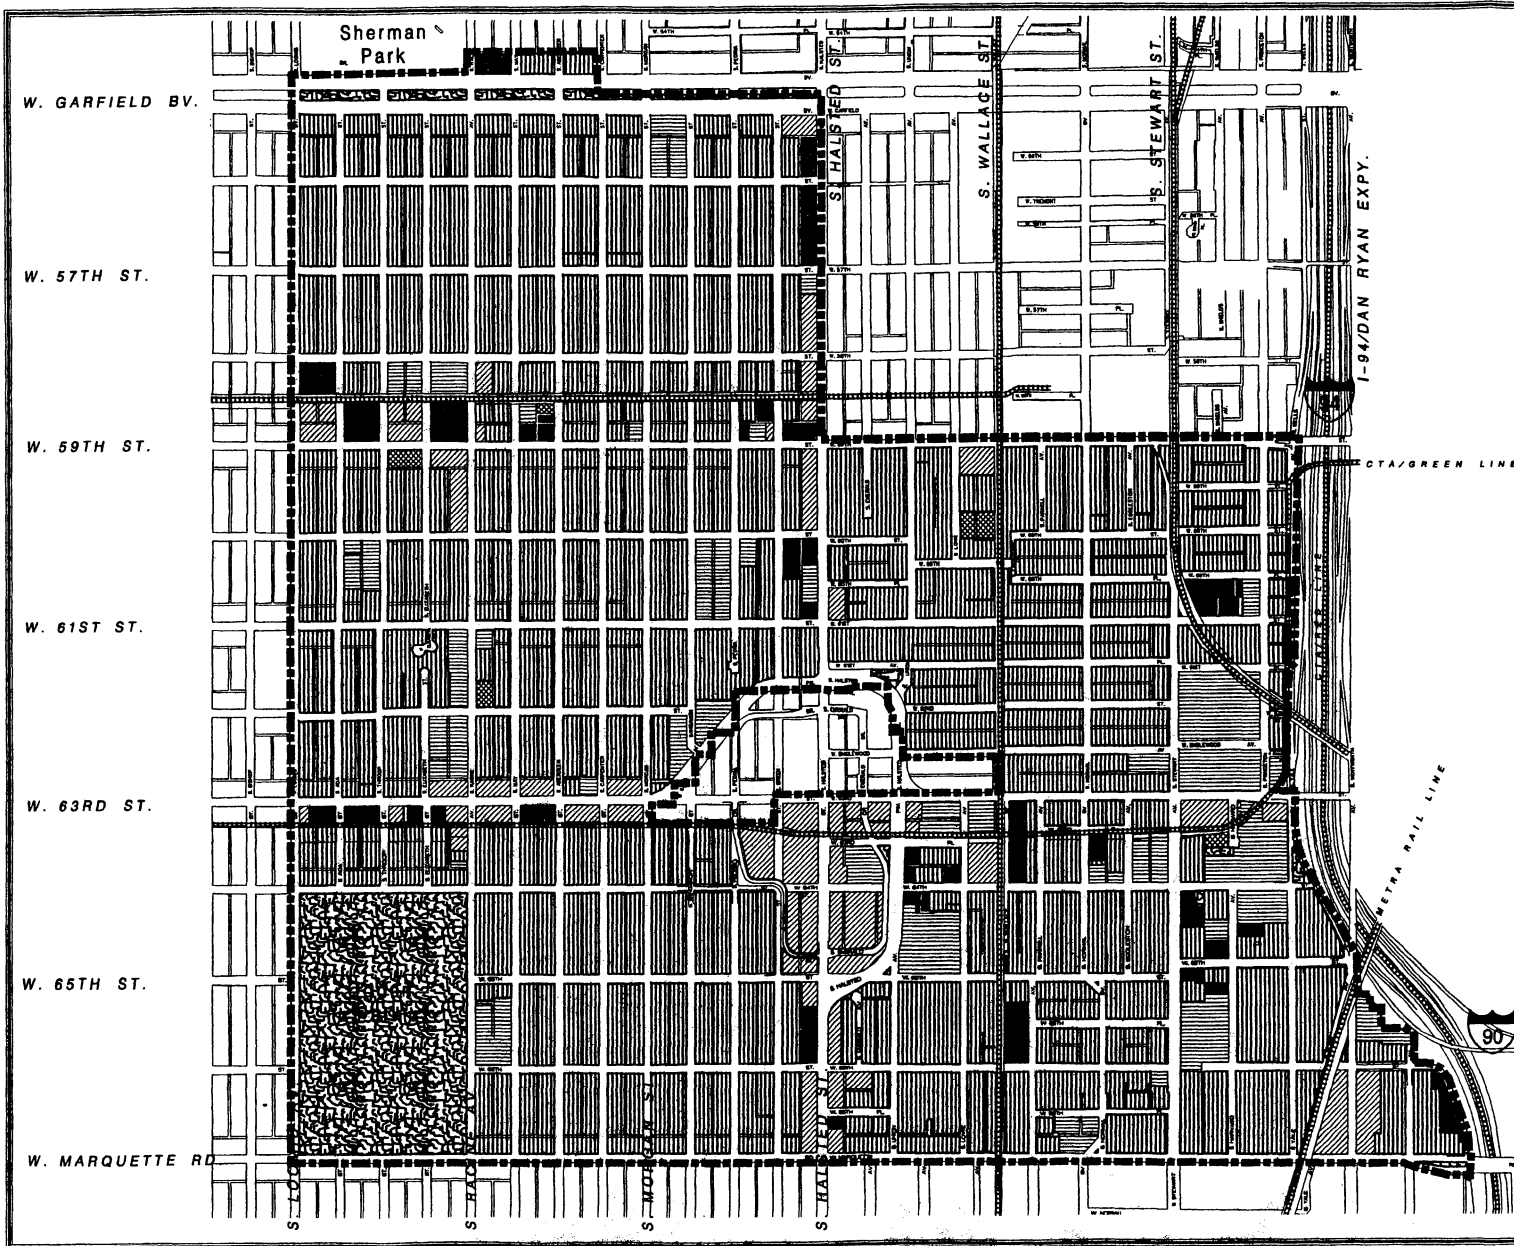

The total equalized assessed value (EAV) of the RPA declined for four of the last five years (1994-1999) for which information was available. Overall, the EAV of the RPA grew at a rate that was significantly lower than the growth rate for the City of Chicago. The total EAV of the RPA grew at a compound annual rate of 0.60% from 1994 to 1999 while the compound annual growth rate for the City of Chicago as a whole was 3.67% during that same time period. This indicates that the overall growth in property value within the RPA has been slower than that of the City as a whole. The preponderance of vacant parcels within the RPA has a significant influence on the slow growth in property value that was found; the compound annual growth rate of EAV in the RPA was 2.28% from 1994 to 1999 when considering improved parcels only. Over the same time period, the compound annual growth rate of EAV for the vacant parcels only was -9.99%.

Vacant land is found throughout the Englewood Neighborhood RPA. Of the 7,477 parcels in the RPA, 2,201 (29%) are vacant, meaning that nearly one (1) out of every (3) parcels in the RPA is

vacant. These vacant parcels tend to be located adjacent to existing deteriorated structures. Overall, 71% of the vacant parcels are adjacent to one or more deteriorated structures whose influence could inhibit potential redevelopment of the vacant land. Ownership of the vacant parcels is scattered among a large number of owners, which also can hinder redevelopment.

The Factors-By-Block Table in Appendix 2 details the blighted eligibility factors by block within the Englewood Neighborhood RPA. Maps 4a through 4e illustrate the distribution of those blighted eligibility factors found to be present to a major extent by highlighting each block where the respective factors were found to be present to a meaningful degree. The following sections summarize our field research as it pertains to each of the identified eligibility factors found within the Englewood Neighborhood RPA.

## **IMPROVED PROPERTY FACTORS**

### **1. Deterioration**

Of the 3,991 buildings within the RPA, 1,279 (32%) exhibited deterioration. Catalogued deterioration included major defects in building components including collapsed or missing gutters and down spouts, cracked, broken or missing windows, evidence of roof leaks, building foundation problems, and cracked exterior wall surfaces. These are conditions not readily correctable through normal maintenance. Widespread structural deterioration is indicative of an area that has become blighted and would benefit from direct intervention.

In addition, deterioration was documented for much of the surface infrastructure within the RPA. Surface infrastructure was found to be deteriorated if damage to the sidewalks, curbs, parkways, street, or alley surfaces was so severe that significant repairs would be needed to restore them. Of the 5,276 improved parcels within the RPA, 795 (15%) were affected by deterioration of infrastructure.

Combined, this represents a total of 1,907 improved parcels (36%) or more than one (1) out of every three (3) improved parcels throughout the RPA suffering from deterioration of building or infrastructure components.

Overall, deterioration was considered to be present to a meaningful extent on 80% or more than three (3) out of every four (4) blocks with improved parcels within the Englewood Neighborhood RPA. The benchmark used was at least 20% of the parcels on a block exhibiting the factor.

### **2. Structures Below Minimum Code Standards**

Relying upon data provided by the City's Department of Buildings, code violation citations were issued for 1,050 different property addresses within the Englewood Neighborhood RPA between January 1995 and November 2000. This continuing problem underscores the documented deterioration of buildings. Structures below code standards indicate that a building is in a current state of non-compliance and could potentially fall into more severe disrepair. The code violation citations have implicated 23% of the existing buildings within the Englewood Neighborhood RPA between January 1995 and June 2000. In addition, code violation citations were issued during this period for 140 property addresses where there are no buildings currently standing, indicating that these structures have been demolished.

This eligibility factor was present to a meaningful extent on 60% of the 217 blocks with buildings within the Englewood Neighborhood RPA. The benchmark used was at least 20% of the buildings on a block exhibiting the factor.

### **3. Excessive Vacancies**

Of the 3,991 buildings within the RPA, 413 (10%) exhibited excessive vacancies. A building was considered to have excessive vacancies if it appeared to be at least one-third vacant. This eligibility

factor was present to a meaningful extent on 27% of the 217 blocks with buildings within the Englewood Neighborhood RPA. The benchmark used was at least 15% of the parcels on a block exhibiting the factor. A benchmark slightly lower than 15% was used to account for the serious impact that a vacant building has on adjacent properties.

#### 4. Lack of Growth in Equalized Assessed Value

The total equalized assessed value (EAV) is a measure of the property value in the Englewood Neighborhood RPA. A lack of growth in EAV has been found for the RPA in that property values (as measured by EAV) of the RPA have either declined or have grown at a rate less than that of the balance of the City of Chicago for each of the last five years for which information is available (1994 through 1999). This lack of growth has occurred both for all the parcels in the RPA and also for the improved parcels only. The lack of growth in equalized assessed value within an area is one of the strongest indicators that the area as a whole has not been subject to growth and development by private enterprise.

	Percent Change in EAV 1994/1995	Percent Change in EAV 1995/1996	Percent Change in EAV 1996/1997*	Percent Change in EAV 1997/1998	Percent Change in EAV 1998/1999
Englewood Neighborhood RPA (all parcels)	-3.03%	-0.72%	8.07%	-0.86%	-0.13%
Englewood Neighborhood RPA (improved parcels)	-1.15%	0.86%	10.49%	0.75%	0.86%
City of Chicago (balance of)	1.09%	1.41%	7.94%	2.31%	5.79%

The percent change in EAV of the RPA was either negative or lower than that of the balance of the City of Chicago for four of the last five years. Therefore, the RPA as a whole qualifies for the Lack of Growth in EAV factor.

\* The 1996/1997 period is shaded to indicate that it is a non-qualifying year.

This eligibility factor was analyzed area-wide and is considered to be present to a meaningful extent for the entire Englewood Neighborhood RPA.

#### 5. Inadequate Utilities

A review of the City's water and sewer atlases found that inadequate underground utilities affect all the blocks within the RPA. All (100%) the blocks within the RPA are serviced by antiquated water mains that are either scheduled for or overdue for replacement. Some replacements are required because the water lines have reached the end of their 100-year useful service lives and others are needed because the water mains are of insufficient size to comply with modern capacity requirements.

In addition, all (100%) the blocks within the RPA are serviced by sewer mains that are 100 years old or older. Most of the sewer lines have not been modernized or upgraded to current construction standards. Their age and outdated method of construction increases the risk of maintenance problems and structural deficiencies.

Due to the age and condition of the sewer and water lines, inadequate utilities were found to be present to a meaningful extent on 100% of the blocks within the Englewood Neighborhood RPA.

## VACANT LAND FACTORS

### 1. **Deterioration of Structures or Site Improvements in Neighboring Areas Adjacent to the Vacant Land**

Of the 2,201 vacant parcels in the Englewood Neighborhood RPA, 1,555 (71%) were found to be adjacent to improved parcels which exhibit deterioration. The presence and distribution of deteriorated improved parcels was discussed in previous section on improved property factors. The closest improved parcels on each side of a vacant parcel were considered adjacent for the purposes of the analysis.

This eligibility factor was present to a meaningful extent on 84% of the 206 blocks with vacant land within the Englewood Neighborhood RPA. The benchmark used was at least 20% of the vacant parcels on a block exhibiting the factor.

### 2. **Diversity of Ownership**

There are 2,201 vacant parcels in the Englewood Neighborhood RPA, representing 29% or almost one-third of the total parcels. Analysis of assessor data regarding the taxpayer of record for the vacant parcels reveals well over 1,000 different taxpayers for vacant parcels where the name of the owner was listed. This situation would make it difficult to assemble land for new development.

This eligibility factor was analyzed area-wide and is considered to be present to a meaningful extent for all of the vacant parcels in the Englewood Neighborhood RPA.

### 3. **Lack of Growth in Equalized Assessed Value**

The total equalized assessed value (EAV) is a measure of the property value in the Englewood Neighborhood RPA. A lack of growth in EAV has been found for the RPA in that property values (as measured by EAV) of the RPA have either declined or have grown at a rate less than that of the balance of the City of Chicago for each of the last five years for which information is available (1994 through 1999). Considering vacant parcels only, the EAV has declined in each of the past five years. The lack of growth in equalized assessed value within an area is one of the strongest indicators that the area as a whole has not been subject to growth and development by private enterprise.

**Table 2: Percent Change in Annual Equalized Assessed Valuation (EAV) - Vacant Parcels**

	Percent Change in EAV 1994/1995	Percent Change in EAV 1995/1996	Percent Change in EAV 1996/1997*	Percent Change in EAV 1997/1998	Percent Change in EAV 1998/1999
Englewood Neighborhood RPA (all parcels)	-3.03%	-0.72%	8.07%	-0.86%	-0.13%
Englewood Neighborhood RPA (vacant parcels)	-12.25%	-9.48%	-6.89%	-12.70%	-8.51%
City of Chicago (balance of)	1.09%	1.41%	7.95%	2.31%	5.79%

The percent change in EAV for vacant parcels within the RPA was negative for each of the last five years. Therefore, the RPA as a whole qualifies for the Lack of Growth in EAV factor.

\* The 1996/1997 period is shaded to indicate that it is a non-qualifying year for the RPA as a whole.

## ***4. Redevelopment Project and Plan***

### ***Redevelopment Needs of the Englewood Neighborhood RPA***

The existing land use pattern and physical conditions in the Englewood Neighborhood RPA suggest five (5) redevelopment needs for the area:

1. Development of infill housing on currently vacant parcels;
2. Rehabilitation of deteriorated residential properties;
3. Property assembly, demolition, and site preparation;
4. New commercial and light industrial development; and
5. Infrastructure improvements.

The Redevelopment Plan identifies the tools that the City will use to guide redevelopment in the Englewood Neighborhood RPA to stimulate economic development and to promote and sustain a strong residential community fabric. Currently, the Englewood Neighborhood RPA is characterized by numerous vacant parcels, vacant and underutilized buildings, deteriorated buildings and infrastructure, and an overall decline in property values.

The goals, objectives, and strategies discussed below have been developed to address these needs and facilitate the sustainable redevelopment of the Englewood Neighborhood RPA. The proposed public improvements outlined in the Redevelopment Plan will help arrest the current decline and create an environment conducive to private investment and redevelopment within the Englewood Neighborhood RPA. To support specific projects and encourage future investment in the RPA, public resources, including tax increment financing, may be used to: facilitate property assembly and demolition; subsidize development of new affordable housing; rehabilitate existing structures; and improve or repair RPA infrastructure.

### ***Goals, Objectives, and Strategies***

Goals, objectives, and strategies designed to address the needs of the community form the overall framework of the Redevelopment Plan for the use of anticipated tax increment funds generated within the Englewood Neighborhood RPA.

**Goal.** The overall goal of the TIF Redevelopment Plan is to reduce or eliminate conditions that qualify the Englewood Neighborhood RPA as a blighted area and to provide the direction and mechanisms necessary to stimulate the redevelopment of vacant parcels, increase home ownership opportunities, and provide rehabilitation assistance to neighborhood residents. Redevelopment of the RPA will restore the neighborhood fabric and arrest the trend of deterioration through the redevelopment of vacant parcels for new housing and the rehabilitation of existing properties. This goal is to be achieved through an integrated and comprehensive strategy that leverages public resources to provide assistance to neighborhood residents and stimulate additional private investment.

**Objectives.** Eight (8) broad objectives support the overall goal of area-wide revitalization of the

Englewood Neighborhood RPA. These include:

1. Facilitate the assembly, preparation, and marketing of vacant and underutilized sites for infill housing development, including the conveyance of City-owned vacant lots at minimal prices to adjoining residents for maintenance and the reactivation of parcels whose potential redevelopment has been hindered by tax delinquencies;
2. Create opportunities for the development of new affordable housing by providing assistance to qualified developers to reduce the purchase price of new homes so as to increase home ownership in the RPA and stimulate construction in areas previously bypassed for new development;
3. Enhance neighborhood appearance and improve the quality of the existing housing stock by leveraging TIF funds to provide assistance to support rehabilitation of residences in the RPA;
4. Create a physical environment which is conducive to the development of new housing through the replacement or repair of infrastructure where needed, including sidewalks, streets, curbs, gutters, underground water and sanitary systems, and viaducts to improve the overall image of the neighborhood and to support new development and redevelopment in the RPA;
5. Encourage new neighborhood level commercial uses and light industrial development in appropriate locations along major thoroughfares such as 59<sup>th</sup> Street, 63<sup>rd</sup> Street, and Halsted Street so as to promote local shopping opportunities and job creation for area residents;
6. Promote opportunities for women-owned, minority-owned, and locally owned businesses to share in the job and construction opportunities associated with the redevelopment of the Englewood Neighborhood RPA;
7. Support job training programs and increase employment opportunities, including welfare-to-work programs and construction job training programs, for area residents and individuals working in area businesses that will build capacity in the local employment base and support the economic revitalization of the RPA; and
8. Coordinate the goals of this redevelopment plan with the goals and objectives of other underlying redevelopment plans and planning studies where appropriate, and coordinate available federal, state, and local resources, as appropriate.

**Strategies.** These objectives will be implemented through five (5) specific and integrated strategies. These include:

1. **Assist Existing Residents and Businesses.** The City may provide assistance to support existing residents and businesses in the RPA. This may include financial or other assistance to home owners and/or landlords of small and large apartment buildings for rehabilitation, leasehold improvements, new construction, and the provision of affordable housing units.

TIF-based assistance may be used independently or with other housing programs to lower the cost of housing to a level that is affordable to low- and moderate-income households. Resources may also be available to businesses for job training, welfare-to-work, and day care assistance. In addition, to the extent allowable under the law, locally owned businesses and residents will share in the employment, job, and construction-related opportunities that may be offered by redevelopment within the Englewood Neighborhood RPA.

2. **Facilitate Property Assembly, Demolition, and Site Preparation.** Vacant and underutilized sites listed in Appendix 3 may be acquired and assembled by the City to attract future private investment and development. The consolidated ownership of these sites will make them easier to market to potential developers and will streamline the redevelopment process. In addition, assistance may be provided to private developers seeking to acquire land and assemble sites in order to undertake projects supportive of this Redevelopment Plan.

Appendix 3 contains a list of parcels by block and Permanent Index Number (PIN) in the Englewood Neighborhood RPA that have been identified for acquisition in previously adopted Redevelopment Plans. The Englewood Community Area Conservation Plan and its subsequent amendments established City authority to acquire and assemble property. Such acquisition and assembly under that authority is consistent with this TIF Redevelopment Plan. Nothing in this Redevelopment Plan shall be deemed to limit or adversely affect the authority of the City under the Englewood Community Area Conservation Plan to acquire and assemble property. Accordingly, incremental property taxes from the RPA may be used to fund the acquisition and assembly of property by the City under the authority of the Englewood Community Area Conservation Plan within the Englewood Neighborhood Redevelopment Project Area.

In connection with the City exercising its powers to acquire real property not currently listed in Appendix 3, including the exercise of the power of eminent domain under the Act in implementing the Plan, the City will follow its customary procedures of having each such acquisition recommended by the Community Development Commission (or any successor commission) and authorized by the City Council of the City. Acquisition of such real property as may be authorized by the City Council does not constitute a change in the nature of this Redevelopment Plan. Businesses or households legally occupying properties to be acquired by the City may be provided with relocation advisory and/or financial assistance as determined by the City. Site preparation may include demolition of existing improvements and environmental remediation, where appropriate.

3. **Develop Vacant and Underutilized Sites.** The redevelopment of vacant and underutilized sites within the Englewood Neighborhood RPA is expected to stimulate private investment and enhance the RPA. Development of vacant and underutilized sites is anticipated to have a positive impact on other properties beyond the individual project sites.
4. **Encourage Private Sector Activities and Support New Development.** Through the creation and support of public-private partnerships, or through written agreements, the City

may provide financial and other assistance to encourage the private sector, including local property owners and businesses, to undertake rehabilitation and redevelopment projects and other improvements that are consistent with the goals of this Redevelopment Plan.

The City requires that developers who receive TIF assistance for market-rate housing set aside 20% of the units to meet affordability criteria established by the City's Department of Housing. Generally, this means that affordable for-sale housing units should be priced at a level that is affordable to persons earning no more than 120% of the area median income, and affordable rental units should be affordable to persons earning no more than 80% of the area median income. TIF funds can also be used to pay for up to 50% of the cost of construction or up to 75% of interest costs for new housing units to be occupied by low-income and very low-income households as defined in Section 3 of the Illinois Affordable Housing Act.

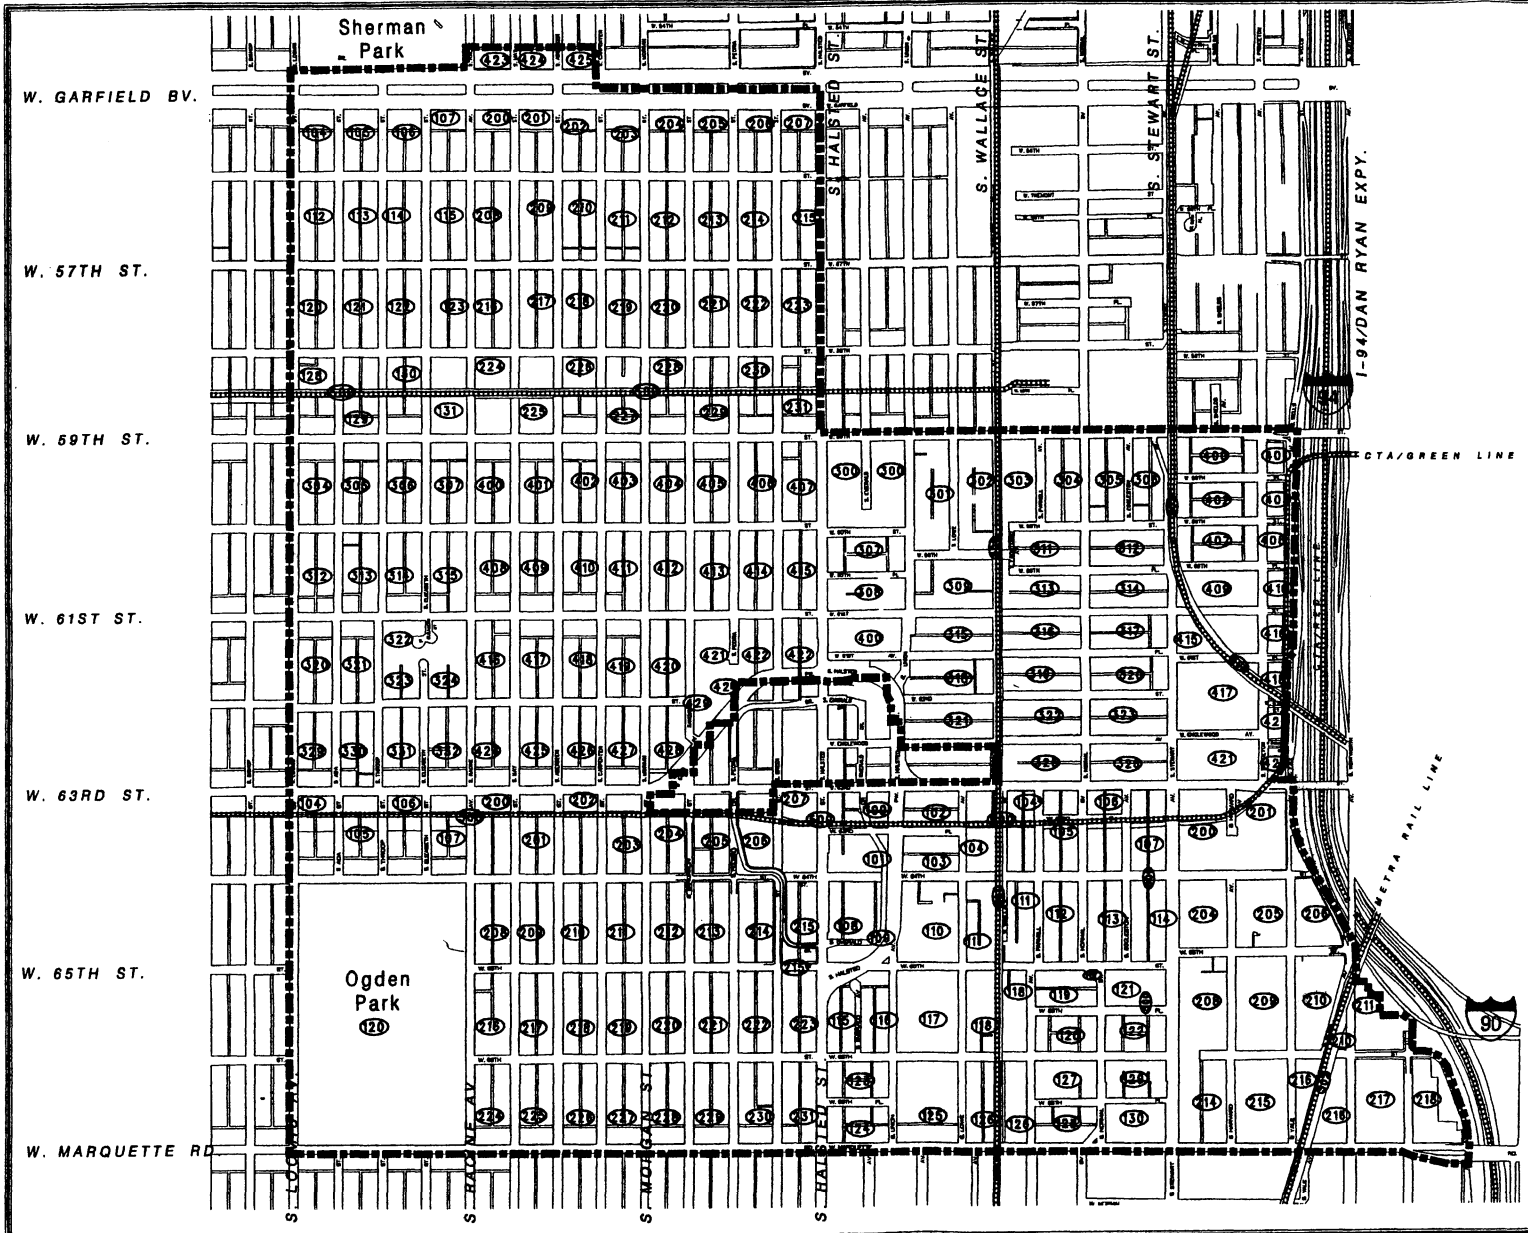

5. **Implement Public Improvements.** A series of public improvements throughout the Englewood Neighborhood RPA may be designed and implemented to help define and create an identity for the area, prepare sites for anticipated private investment, and create a more conducive environment for retail, commercial, and residential development. These improvements may include new streetscaping, street and sidewalk lighting, resurfacing of alleys, sidewalks and streets, improvement of underground water and sewer infrastructure, creation of parks and open space, and other public improvements consistent with the Redevelopment Plan. These public improvements may be completed pursuant to redevelopment agreements with private entities or intergovernmental agreements with other public entities, and may include the construction, rehabilitation, renovation, or restoration of public improvements on one or more parcels.

These activities are representative of the types of projects contemplated to be undertaken during the life of the Englewood Neighborhood RPA. Market forces are critical to the completion of these projects. Phasing of projects will depend on the interests and resources of both public and private sector parties. Not all projects will necessarily be undertaken. Further, additional projects may be identified throughout the life of the Englewood Neighborhood RPA. To the extent that these projects meet the goals of this Redevelopment Plan and the requirements of the Act and budget outlined in the next section, these projects may be considered for tax increment funding.

### ***Proposed Future Land Use***

The proposed future land use of the Englewood Neighborhood RPA reflects the objectives of the Redevelopment Plan, which works to provide direction for the marketing of vacant sites in the RPA for redevelopment activities. The proposed objectives are compatible with historic land use patterns and support current development trends in the area.

These proposed future land uses are detailed on Map 5. As noted on Map 5, the uses listed are to be predominant uses for the area indicated, and are not exclusive of any other uses.

### *Assessment of Housing Impact*

The purpose of this section is to conduct a housing impact study for the Englewood Neighborhood RPA as set forth in the Tax Increment Allocation Redevelopment Act (the “Act”). As set forth in the Act, if the redevelopment plan for a redevelopment project area would result in the displacement of residents from 10 or more inhabited residential units, or if the redevelopment project area contains 75 or more inhabited residential units and the City is unable to certify that no displacement of residents will occur, the municipality shall prepare a housing impact study and incorporate the study in the separate feasibility report required by the subsection (a) of Section 11-74.4-5 (sic) [Section 11.74-4-4.1], which for the purposes hereof shall also be the “Englewood Neighborhood Tax Increment Financing Redevelopment Project and Plan.”

The primary goal of the Redevelopment Plan is to facilitate the creation of new housing opportunities on vacant and underutilized parcels and to support the rehabilitation of existing deteriorated residential buildings. Therefore, it is unlikely that any inhabited residential units will be removed. However, since the RPA contains more than 75 inhabited residential units and redevelopment activity could conceivably result in the displacement of inhabited residential units over the 23-year life of the RPA, a housing impact study is required. As set forth in the Act:

Part I of the housing impact study shall include:

- (i) data as to whether the residential units are single family or multi-family units;
- (ii) the number and type of rooms within the units, if that information is available;
- (iii) whether the units are inhabited or uninhabited, as determined not less than 45 days before the date that the ordinance or resolution required by subsection (a) of Section 11-74.4-5 of the Act is passed; and
- (iv) data as to the racial and ethnic composition of the residents in the inhabited residential units, which data requirement shall be deemed to be fully satisfied if based on data from the most recent federal census.

Part II of the housing impact study identifies the inhabited residential units in the proposed redevelopment project area that are to be or may be removed. If inhabited residential units are to be removed, then the housing impact study shall identify:

- (i) the number and location of those units that will be or may be removed;
- (ii) the municipality’s plans for relocation assistance for those residents in the proposed redevelopment project area whose residencies are to be removed;
- (iii) the availability of replacement housing for those residents whose residences are to be removed, and the identification of the type, location, and cost of the replacement housing; and

- (iv) the type and extent of relocation assistance to be provided.

## **PART I - Residential Units**

Part I of this study provides the type, size, and number of residential units within the Redevelopment Project Area; the number of inhabited and uninhabited units; and the racial and ethnic composition of the residents in the inhabited residential units.

### **(i) Number and Type of Residential Units**

The number and type of residential buildings in the area was identified during the building condition and land use survey conducted as part of the eligibility analysis for the area. This survey, completed on October 10, 2000, revealed that the Englewood Neighborhood RPA contains 3,706 residential or mixed-use residential buildings containing a total of 8,534 units. The number of residential units by building type is described as follows:

<b>Building Type</b>	<b>Total Number of Buildings</b>	<b>Total Number of Units</b>
Single-Family	1,538	1,538
Two-Flat	1,609	3,218
Three-Flat	206	618
Multi-Family (4 or more units)	251	2,843
Mixed-Use (Residential Above)	102	317
<b>Total</b>	<b>3,706</b>	<b>8,534</b>

Source: *S. B. Friedman & Company*

### **(ii) Number and Type of Rooms within Units**

The distribution within the Englewood Neighborhood RPA of the 8,534 residential units by number of rooms and by number of bedrooms is identified in tables within this section. The methodology to determine this information is described below.

## **Methodology**

In order to describe the distribution of residential units by number and type of rooms within the Englewood Neighborhood RPA, *S. B. Friedman & Company* analyzed 1990 United States Census data by Block Groups for those Block Groups encompassed by the Redevelopment Project Area. A Block Group is a combination of census blocks (a census block is the smallest entity for which the Census Bureau collects and tabulates 100% data). The Block Group is the lowest level of geography for which the Census Bureau tabulates sample, or long-form, data. In this study, we have relied on 1990 federal census sample data because it is the best available information regarding the structures and residents of the Redevelopment Project Area. This Block Group data show the distribution of the number of bedrooms in each unit and the distribution of units by the number of rooms within

each unit. We then applied the 1990 distribution percentage to the total number of units identified by the survey. We found:

<b>Units by Bedroom Type<sup>2</sup></b>		
<b>Number of Bedrooms</b>	<b>Percentage (1990 Census)</b>	<b>Current Estimated for RPA</b>
Studio	3%	237
1 Bedroom	19%	1,626
2 Bedrooms	35%	2,963
3 Bedrooms	31%	2,946
4 Bedrooms	8%	681
5+ Bedrooms	4%	381
<b>Total</b>	<b>100%</b>	<b>8,534</b>

<b>Units by Number of Rooms<sup>3</sup></b>		
<b>Number of Rooms</b>	<b>Percentage (1990 Census)</b>	<b>Current Estimated for RPA</b>
1 Room	1%	116
2 Rooms	5%	447
3 Rooms	11%	905
4 Rooms	15%	1,289
5 Rooms	27%	2,265
6 Rooms	25%	2,096
7 Rooms	8%	707
8 Rooms	3%	272
9+ Rooms	5%	437
<b>Total</b>	<b>100%</b>	<b>8,534</b>

Source: United States Census and *S. B. Friedman & Company*

<sup>2</sup> As defined by the Census Bureau, number of bedrooms includes all rooms intended for use as bedrooms even if they are currently used for some other purpose. A housing unit consisting of only one room, such as a one-room efficiency apartment, is classified, by definition, as having no bedroom.

<sup>3</sup> As defined by the Census Bureau, for each unit, rooms include living rooms, dining rooms, kitchens, bedrooms, finished recreation rooms, enclosed porches suitable for year-round use, and lodger's rooms. Excluded are strip or Pullman kitchens, bathrooms, open porches, balconies, halls or foyers, half-rooms, utility rooms, unfinished attics or basements, or other unfinished space used for storage. A partially divided room is a separate room only if there is a partition from floor to ceiling, but not if the partition consists solely of shelves or cabinets.

**(iii) Number of Inhabited Units**

According to data compiled from the survey completed by *S. B. Friedman & Company* ending on October 10, 2000, the Englewood Neighborhood RPA contains an estimated 8,534 residential units of which 933 (11%) are estimated to be vacant. Therefore, there are approximately 7,601 total inhabited units within the redevelopment area. As required by the Act, this information was ascertained as of October 10, 2000, which is a date not less than 45 days prior to the date that the resolution required by subsection (a) of Section 11-74.4-5 of the Act is or will be passed (the resolution setting the public hearing and Joint Review Board meeting dates).

**(iv) Race and Ethnicity of Residents**

As required by the Act, the racial and ethnic composition of the residents in the inhabited residential units was determined. For this information, we chose to use data provided by Claritas, Inc., a nationally recognized and respected provider of market demographic data. Claritas develops current-year projections based on United States Census data, as well as other market data and trends.

According to Claritas, there are an estimated 26,389 residents living within the proposed boundaries of the Englewood Neighborhood RPA in 2000. The race and ethnic composition of these residents is described as follows:

Race	Estimated Number of Residents in 2000	Percentage
White	76	0.3%
Black	26,253	99.5%
American Indian/Eskimo/Aleut	19	0.1%
Asian /Pacific Islander	41	0.2%
Total	26,389	100%

Hispanic Origin	Estimated Number of Residents in 2000	Percentage
Hispanic	172	0.7%
Non-Hispanic	26,217	99.3%
Total	26,389	100%

Source: Claritas, Inc.

**PART II - Units that May Be Removed Over the 23-Year Life of the Redevelopment Project Area**

Part II contains, as required by the Act, information on any acquisition, relocation program, replacement housing, and relocation assistance.

**(i) Number and Location of Units That May Be Removed**

Since the primary goals of the Redevelopment Plan are to develop infill housing on currently vacant lots and rehabilitate existing deteriorated buildings, it is unlikely that removal of inhabited residential units will take place. Although the Plan does not anticipate removing any of the Redevelopment Project Area's 7,601 inhabited residential units, the Redevelopment Project Area does contain a number of dilapidated buildings with residential uses. Dilapidation can gravely affect a building's safety and desirability and is the most severe of blighting factors. Accordingly, it is reasonable to conclude that dilapidated buildings may be targeted for redevelopment by developers, which may result in the removal of inhabited residential units.

Since no development proposals for the Redevelopment Project Area have been submitted to the City, it is impossible to determine whether the redevelopment or demolition of these buildings and the removal of any of their inhabited residential units would stem from projects that receive tax increment assistance (or other public projects that are implemented in furtherance of this Plan).

Hence, there is a possibility that over the 23-year life of the Redevelopment Project Area, some inhabited residential units may be removed as a result of implementing this Plan. In order to meet the statutory requirement of defining the number and location of inhabited residential units that may be removed, a methodology was established that would provide a rough, yet reasonable, estimate. This methodology is described below.

**Methodology**

The methodology used to fulfill the statutory requirements of defining the number and location of inhabited residential units that may be removed involves three steps.

1. Step one counts all inhabited residential units previously identified on any underlying acquisition maps. For this purpose, the afore described Englewood Neighborhood Redevelopment Area was reviewed. Since there are no inhabited residential units on any current acquisition maps, the number of residential units that may be removed due to identified acquisition is zero.
2. Step two counts the number of inhabited residential units contained on parcels that are dilapidated as defined by the Act. From the survey conducted by *S. B. Friedman & Company*, we have identified a total of 74 buildings within the Englewood Neighborhood RPA that can be classified as dilapidated and that have an associated residential use. These buildings include approximately 158 total housing units, of which only 42 are currently estimated to be inhabited. Therefore, the number of inhabited residential units that may be removed due to demolition or rehabilitation of dilapidated buildings is 42.
3. Step three counts the number of inhabited residential units that exist where the future land use indicated by the Plan will not include residential uses. After reviewing the Proposed Land Use for the Englewood Neighborhood RPA, we determined that there are no units impacted by changes to the existing land use. Therefore, the number of inhabited residential

units that may be removed due to future land use change is zero.

Map 6 identifies the 42 occupied units (that is the sum of the units found in Steps 1 to 3 above), in 26 buildings on 21 blocks of the Redevelopment Project Area, that could potentially be removed during the 23-year life of the Englewood Neighborhood RPA. In addition, the specific parcels' PINs are listed in Appendix 4 of this study.

## (ii) Replacement Housing

In accordance with Section 11-74.4-3(n)(7) of the Act, the City shall make a good faith effort to ensure that affordable replacement housing for any qualified displaced residents whose residence is removed is located in or near the Redevelopment Project Area.

To promote development of affordable housing, the Redevelopment Plan requires that developers who receive tax increment financing assistance for market-rate housing are to set aside at least 20 percent of the units to meet affordability criteria established by the City's Department of Housing. Generally, this means affordable rental units should be affordable to households earning no more than 80 percent of the area median income (adjusted for family size).

If, during the 23-year life of the Englewood Neighborhood RPA, the acquisition plans change, the City shall make every effort to ensure that appropriate replacement housing will be found in either the Redevelopment Project Area or the surrounding Englewood and West Englewood Community Areas.

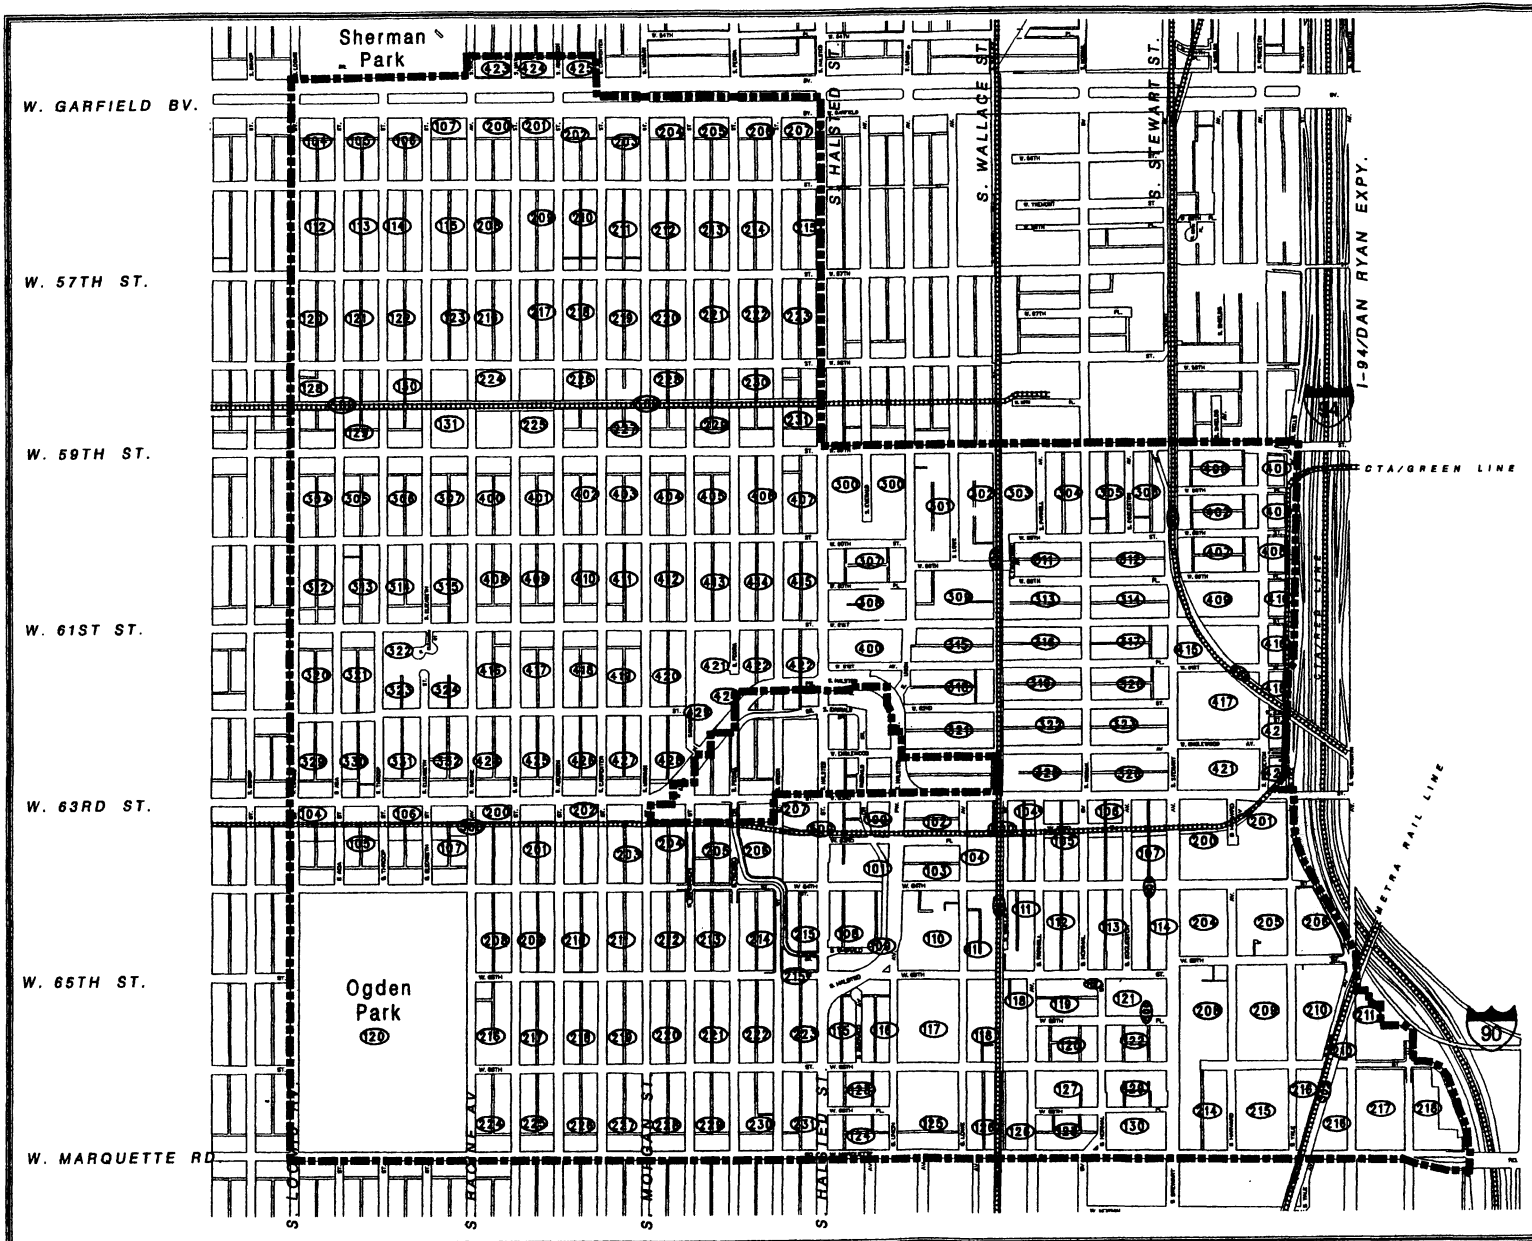

According to information obtained through interviews conducted by *S. B. Friedman & Company* with area developers, there are currently four (4) planned projects located within the Englewood Neighborhood RPA which will contain affordable rental units. These units are detailed within the following table:

Planned Projects Located Within the Englewood Neighborhood RPA				
Project Name	Number of Planned Units	Year Available	Unit Type	Affordable to:*
Antioch Phase 2	57	2002	N/A	Very Low-Income
Antioch Phase 3	75	2003	N/A	Very Low-Income
Yale Building Rehab	68	2001	68 1-BRs	Seniors
Victoria Jennings Housing	24	2001	9 1-BRs, 6 2-BRs, 9 3-BRs	Physically Disabled

\* According to Department of Housing and Urban Development (HUD) standards as defined later in this section..

Source: *S. B. Friedman & Company*

The location, type, and cost of a further sample of possible replacement housing units located within the Englewood and West Englewood Community Areas was determined through classified advertisements and Internet listings from the Chicago Tribune, the Chicago Sun Times, and

DECEMBER 2000

Draft

Apartments.com during the month of December, 2000. It is important to note that Chicago has a rental cycle where apartments turn over at a greater rate on May 1 and October 1 of each year. These times would likely reflect a wider variety of rental rates, unit sizes and locations than those available in December. The location, type, and cost of these units is listed in the table below:

	Location	# of Bedrooms	Rental Price	Amenities	Section 8 Accepted	Community Area	Adjusted for Family and Unit Size, Affordable To:*
1	70th & Halsted	1	\$325	Includes Heat		Englewood	Very, Very Low-Income
2	68th & Normal	1	\$355		yes	Englewood	Very, Very Low-Income
3	66th & Perry	1	\$415		yes		Very Low-Income
4	70th & Ashland	1	\$435		yes	West Englewood	Very Low-Income
5	67th & Green	1	\$450			Englewood	Very Low-Income
6	214 W. 71st	1	\$475			Englewood	Very Low-Income
7	1806 W. 58th	1	\$550		yes	West Englewood	Very Low-Income
8	1806 W. 58th	1	\$550		yes	West Englewood	Very Low-Income

\* According to Department of Housing and Urban Development (HUD) standards as defined later in this section..

Source: Chicago Tribune, Chicago Sun Times, Apartments.com & S. B. Friedman & Company

To further determine the availability of replacement rental housing for those residents of rental units which may potentially be removed, *S. B. Friedman and Company* reviewed the Regional Rental Market Analysis Summary Report, prepared for the Metropolitan Planning Council in November 1999. This report describes vacancy rates by apartment type for three defined sub-regions within the City: North, West, and South. The Englewood Neighborhood RPA is located entirely within the South region as defined within the Summary Report.

The Summary Report lists vacancy rates for each of the three defined sub-regions for units in small buildings (2 to 9 units), which are the predominant building types in the Englewood Neighborhood RPA. However, the only unit types for which data is available are two and three or more bedrooms. The vacancy rates for units within small buildings within the South region were as follows:

<u>Type/Size</u>	<u>Vacancy Rate</u>
2 BR	4.4%
3 or more BR	9.0%

Based on information provided by real estate brokers, and apartment rental agency professionals operating within the Englewood and West Englewood community areas, typical monthly rents (including heat, but not other utilities) that are affordable for the community encompassing the Englewood Neighborhood RPA ranged as follows:

<u>Type/Size</u>	<u>Rent Range</u>
1-2 room Studio	\$300 - \$400
3-4 room, 1 BR	\$350 - \$500
4 room, 2 BR	\$400 - \$500
5 room, 2 BR	\$450 - \$550
6 room, 3 BR	\$450 - \$650

Since the primary goals of the Redevelopment Plan are to develop infill housing on currently vacant lots and rehabilitate existing deteriorated buildings, it is assumed that displacement, if any, caused by activities as part of the Redevelopment Plan will occur concurrently with the development of new housing, both rental and for-sale. As a result, it is anticipated that there will be no net loss of units within the RPA. Furthermore, there is a likelihood that any displacement of the 42 potential units would occur incrementally over the 23-year life of the RPA as individual development projects occur. Therefore, it is not anticipated that there would be a need to relocate more than a few households, if any, in any given year during the full life of the RPA.

**(iv) Relocation Assistance**

At the present time, there are no plans to acquire residential housing units as part of the Plan. However, if the removal or displacement of low-income or very low-income residential housing units is required, such residents will be provided with affordable housing and relocation assistance in accordance with the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 and the regulations thereunder, including the eligibility criteria. The City shall make a good faith effort to ensure that affordable replacement housing for the aforementioned households is located in or near the Redevelopment Project Area.

As used in the above paragraph, “low-income households,” “very low-income households,” and “affordable housing” have the meanings set forth in Section 3 of the Illinois Affordable Housing Act, 310 ILCS 65/3. As of the date of this study, these statutory terms have the following meaning:

- (i) “low-income household” means a single person, family or unrelated persons living together whose adjusted income is more than 50% but less than 80% of the median income of the area of residence, adjusted for family size, as such adjusted income and median income are determined from time to time by the United States Department of Housing and Urban Development (“HUD”) for purposes of Section 8 of the United States Housing Act of 1937;
- (ii) “very low-income household” means a single person, family or unrelated persons living together whose adjusted income is not more than 50% of the median income of the area of residence, adjusted for family size, as so determined by HUD; and
- (iii) “affordable housing” means residential housing that, so long as the same is occupied by low-income households or very low-income households, requires payment of monthly housing costs, including utilities other than telephone, of no more than 30% of the maximum allowable income for such households, as applicable.

In order to estimate the number of moderate<sup>4</sup>, low-, very low-, and very, very low-income<sup>5</sup>

---

<sup>4</sup> A moderate-income household has an adjusted income of more than 80% but less than 120% of the area median income of the area of residence, adjusted for family size, as determined by HUD.

<sup>5</sup> A very, very low-income household has an adjusted income of less than 30% of the area median income of the area of residence, adjusted for family size, as determined by HUD.

households in the Englewood Neighborhood RPA, *S. B. Friedman & Company* used data available from Claritas, Inc. a national demographic data provider. Claritas estimates that of all households residing within the Block Group areas encompassed by the Englewood Neighborhood RPA, 51% may be classified as very, very low-income, 18% may be classified as very low-income, 12% may be classified as low-income, and 12% may be classified as moderate-income households. The remaining 7% of households may be classified as above moderate-income. These percentages are based on an average household size of four (4) persons, which is rounded up from the average household size of 3.13 persons within the Englewood Neighborhood RPA according to Claritas. Applying these percentages to the 7,601 occupied housing units (equivalent to households) identified during the survey completed by *S. B. Friedman & Company* reveals the following:

<b>Households By Income Category</b>			
<b>Income Category</b>	<b>Percentage (from Claritas)</b>	<b>Number of Households</b>	<b>Annual Income Range (Average Household of 4 Persons)</b>
Very, Very Low-Income	51%	3,877	\$0 - \$18,349
Very Low-Income	18%	1,368	\$18,550 - \$30,549
Low-Income	12%	912	\$30,550 - \$45,999
Moderate-Income	12%	912	\$45,200 - \$73,319
Above Moderate-Income	7%	532	\$73,320 +
Total	100%	7,601	--

Source: Claritas, Inc. and *S. B. Friedman & Company*

As described above, the estimates of the total moderate-, low-, very low-, or very, very low-income households within the Englewood Neighborhood RPA collectively represent 93% of the total inhabited units and those households below moderate-income collectively represent 81% of the total inhabited units. Therefore, replacement housing for any displaced households over the course of the 23-year life of the Englewood Neighborhood RPA should be affordable at these income levels.

## 5. *Financial Plan*

### *Eligible Costs*

The Act outlines several categories of expenditures that can be funded using tax increment revenues. These expenditures, referred to as eligible redevelopment project costs, include all reasonable or necessary costs incurred or estimated to be incurred, and any such costs incidental to this plan pursuant to the Act. The City proposes to realize its goals and objectives of redevelopment through public finance techniques, including, but not limited to, tax increment financing, and by undertaking certain activities and incurring certain costs. Some of the costs listed below are eligible costs under the Act pursuant to an amendment to the Act that became effective November 1, 1999. Such eligible costs may include, without limitation, the following:

1. Costs of studies, surveys, development of plans and specifications, implementation and administration of the Redevelopment Plan, including but not limited to, staff and professional service costs for architectural engineering, legal, marketing sites within the area to prospective businesses, developers, and investors, financial, planning or other services, related hard and soft costs, and other related expenses; provided however, that no such charges for professional services may be based on a percentage of the tax increment collected;
2. Property assembly costs, including but not limited to, acquisition of land and other property, real or personal, or rights or interest therein, demolition of buildings, and clearing and grading of land, site preparation, site improvements that serve as an engineered barrier addressing ground level or below ground environmental contamination, including, but not limited to parking lots and other concrete or asphalt barriers;
3. Costs of rehabilitation, reconstruction or repair or remodeling of existing public or private buildings or fixtures and leasehold improvements;
4. Costs of the construction of public works or improvements consistent with the Act, including the costs of replacing an existing public building if pursuant to the implementation of a redevelopment project, the existing public building is to be demolished to use the site for private investment or devoted to a different use requiring private investment;
5. Costs of job training and retraining projects including the costs of "welfare to work" programs implemented by businesses located within the redevelopment project area;
6. Financing costs, including but not limited to, all necessary and incidental expenses related to the issuance of obligations and which may include payment of interest on any obligations issued hereunder including interest accruing during the estimated period of construction of any redevelopment project for which such obligations are issued and for not exceeding 36 months thereafter and including reasonable reserves related thereto and interest accruing during a construction period;

7. All or a portion of a taxing district's capital costs resulting from the redevelopment project necessarily incurred or to be incurred in furtherance of the objectives of the Redevelopment Plan and project, to the extent the municipality by written agreement accepts and approves such costs;
8. An elementary, secondary, or unit school district's increased costs attributable to assisted housing units will be reimbursed as provided in the Act;
9. Relocation costs to the extent that a municipality determines that relocation costs shall be paid or is required to make payment of relocation costs by federal or state law, or under the Act;
10. Payment in lieu of taxes;
11. Costs of job training, retraining, advanced vocational education or career education, including but not limited to, courses in occupational, semi-technical or technical fields leading directly to employment, incurred by one or more taxing districts, provided that such costs (i) are related to the establishment and maintenance of additional job training, advanced vocational education or career education programs for persons employed or to be employed by employers located in the redevelopment project area; and (ii) when incurred by a taxing district or taxing districts other than the municipality, are set forth in a written agreement by or among the municipality and taxing district(s), which agreement describes the program to be undertaken, including but not limited to, the number of employees to be trained, a description of the training and services to be provided, the number and type of positions available or to be available, itemized costs of the program and sources of funds to pay for the same, and the term of the agreement. Such costs include, specifically, the payment by the community college district of costs pursuant to Sections 3-37, 3-38, 3-40 and 3-40.1 of the Public and Community College Act as cited in the Act and by the school districts of cost pursuant to Section 10-22.20a and 10-23.3a of the School Code as cited in the Act.
12. Interest costs incurred by a developer related to the construction, renovation or rehabilitation of a redevelopment project provided that:
  - a. Such costs are to be paid directly from the special tax allocation fund established pursuant to the Act;
  - b. Such payments in any one (1) year may not exceed thirty percent (30%) of the annual interest costs incurred by the redeveloper with regard to the development project during that year;
  - c. If there are not sufficient funds available in the special tax allocation fund to make the payment pursuant to this paragraph (13) then the amount so due shall accrue and be payable when sufficient funds are available in the special tax allocation fund;
  - d. The total of such interest payments paid pursuant to the Act may not exceed thirty

- percent (30%) of the total of (i) cost paid or incurred by the developer for the redevelopment project plus (ii) redevelopment project costs excluding any property assembly costs and any relocation costs incurred by a municipality pursuant to the Act; and
- e. The percentage increases from thirty percent (30%) to seventy-five percent (75%) for the interest cost incurred by a redeveloper for the financing of rehabilitated or new housing units for low-income households and very low-income households, as defined in Section 3 of the Illinois Affordable Housing Act.
  - f. Instead of the interest costs described above in paragraphs 12b. and 12d., a municipality may pay from tax incremental revenues up to 50% of the cost of construction, renovation, and rehabilitation of new housing units (for ownership or rental) to be occupied by low-income households and very low-income households, as defined in Section 3 of the Illinois Affordable Housing Act, as more fully described in the Act. If the units are part of a residential redevelopment project that includes units not affordable to low- and very low-income households, only the low- and very low-income units shall be eligible for this benefit under the Act;
13. The cost of day care services for children of employees from low-income families working for businesses located within the redevelopment project area and all or portion of the cost of operation of day care centers established by redevelopment project area businesses to serve employees from low-income families working in businesses located in the redevelopment project area. For the purposes of this paragraph, "low-income families" means families whose annual income does not exceed 80% of the City, county, or regional median income as determined from time to time by the United States Department of Housing and Urban Development.
14. Unless explicitly stated in the Act and as provided for in relation to low- and very low-income housing units, the cost of construction of new privately owned buildings shall not be an eligible redevelopment project cost.

### ***Estimated Redevelopment Project Costs***

The estimated eligible costs of this Redevelopment Plan are shown in Table 3. The total eligible cost provides an upper limit on expenditures that are to be funded using tax increment revenues, exclusive of capitalized interest, issuance costs, interest, and other financing costs. Within this limit, adjustments may be made in line items without amendment to this Redevelopment Plan. Additional funding in the form of State and Federal grants, private developers contributions and other outside sources may be pursued by the City as a means of financing improvements and facilities which are of benefit to the general community.

<b>Table 3: Estimated TIF Eligible Costs</b>	
<b>Project/Improvements</b>	<b>Estimated Project Costs*</b>
<b>Professional Services</b>	\$800,000
<b>Property Assembly:</b> including site preparation and environmental remediation	\$1,000,000
<b>Rehabilitation Costs (Commercial and Residential)</b>	\$17,400,000
<b>Eligible Construction Costs</b>	\$30,600,000
<b>Relocation</b>	\$1,100,000
<b>Public Works or Improvements (1)</b>	\$10,100,000
<b>Job Training</b>	\$7,000,000
<b>Interest Costs</b>	\$6,000,000
<b>Day Care</b>	\$1,000,000
<b>TOTAL REDEVELOPMENT COSTS (2)</b>	<b>\$75,000,000</b>

\* Exclusive of capitalized interest, issuance costs, and other financing costs

(1) This category also may include the reimbursement of capital costs of taxing districts including schools resulting from the redevelopment project necessarily incurred in the furtherance of the objectives of the Redevelopment Project Area Plan and Project to the extent the City by written agreement accepts and approves such costs.

(2) All costs are in 2000 dollars and may be increased by the rate of inflation reflected in the Consumer Price Index (CPI) for All Urban Consumers for All Items for the Chicago-Gary-Kenosha, IL-IN-WI CMSA, published by the U. S. Department of Labor. In addition to the above stated costs, each issue of obligations issued to finance a phase of the Redevelopment Project may include an amount of proceeds sufficient to pay customary and reasonable charges associated with the issuance of such obligations, including interest costs.

Adjustments to the estimated line item costs in Table 3 are expected and may be made by the City without amendment to the Plan. Each individual project cost will be re-evaluated in light of projected private development and resulting incremental tax revenues as it is considered for public financing under the provisions of the Act. The totals of line items set forth above are not intended to place a limit on the described expenditures. Adjustments may be made in line items within the total, either increasing or decreasing line item costs as a result of changed redevelopment costs and needs.

In the event the Act is amended after the date of the approval of this Redevelopment Plan by the City Council of Chicago to (a) include new eligible redevelopment project costs, or (b) expand the scope or increase the amount of existing eligible redevelopment project costs (such as, for example, by increasing the amount of incurred interest costs that may be paid under 65 ILCS 5/1-74.4-3(q)(11)), this Redevelopment Plan shall be deemed to incorporate such additional, expanded or increased eligible costs as eligible costs under the Redevelopment Plan. In the event of such amendment(s), the City may add any new eligible redevelopment project costs as a line item in Table 3, or otherwise adjust the line items in Table 3 without amendment to this Redevelopment Plan. In no instance, however, shall such additions or adjustments result in any increase in the total redevelopment project

costs without a further amendment to this Redevelopment Plan.

### ***Phasing and Scheduling of the Redevelopment***

Certain projects within the Englewood Neighborhood RPA shall be governed by the terms of written redevelopment agreements entered into between a designated developer and the City. Other projects will consist of City reimbursements of the specified eligible redevelopment costs of applicants who qualify under various programs developed by the City and approved by the City Council.

Where tax increment funds are used to pay eligible redevelopment project costs, to the extent funds are available for such purposes, expenditures by the City shall be coordinated to coincide on a reasonable basis with the actual redevelopment expenditures of the developer(s). The Redevelopment Plan shall be completed, and all obligations issued to finance redevelopment costs shall be retired, no later than December 31<sup>st</sup> of the year in which the payment to the City Treasurer as provided in the Act is to be made with respect to ad valorem taxes levied in the twenty-third year calendar year following the year in which the ordinance approving this redevelopment project area is adopted (by December 31, 2025, if the ordinances establishing the RPA are adopted in 2001).

### ***Sources of Funds to Pay Costs***

Funds necessary to pay for redevelopment project costs and/or municipal obligations which may be issued or incurred to pay for such costs are to be derived principally from tax increment revenues and/or proceeds from municipal obligations which have as a repayment source tax increment revenue. To secure the issuance of these obligations and the developer's performance of redevelopment agreement obligations, the City may require the utilization of guarantees, deposits, reserves, and/or other forms of security made available by private sector developers. The City may incur Redevelopment Project Costs which are paid from the funds of the City other than incremental taxes, and the City may then be reimbursed for such costs from incremental taxes.

The tax increment revenue which will be used to fund tax increment obligations and eligible redevelopment project costs shall be the incremental real property tax revenues. Incremental real property tax revenue is attributable to the increase of the current equalized assessed valuation of each taxable lot, block, tract, or parcel of real property in the redevelopment project area over and above the certified initial equalized assessed value of each such property. Without the use of such incremental revenues, the redevelopment project area is not likely to redevelop.

Other sources of funds which may be used to pay for development costs and associated obligations issued or incurred include land disposition proceeds, state and federal grants, investment income, private investor and financial institution funds, and other sources of funds and revenues as the municipality and developer from time to time may deem appropriate.

The Englewood Neighborhood RPA is contiguous to the existing Englewood Mall Area Redevelopment Project Area and the proposed 47<sup>th</sup> and Halsted Redevelopment Project Area and may, in the future, be contiguous to, or be separated only by a public right-of-way from, other redevelopment areas created under the Act. The City may utilize net incremental property tax

revenues received from the Englewood Neighborhood RPA to pay eligible redevelopment project costs, or obligations issued to pay such costs, in other contiguous redevelopment project areas, or those separated only by a public right-of-way, and vice versa. The amount of revenue from the Englewood Neighborhood RPA made available to support such contiguous redevelopment project areas, or those separated only by a public right-of-way, when added to all amounts used to pay eligible Redevelopment Project Costs within the Englewood Neighborhood RPA, shall not at any time exceed the total Redevelopment Project Costs described in Table 3 of this Redevelopment Plan.

The Englewood Neighborhood RPA may become contiguous to, or separated only by a public right-of-way from, other redevelopment project areas created under the Illinois Industrial Jobs Recovery Law, (65 ILCS 5/11-74.61-1 et. seq.). If the City finds that the goals, objectives and financial success of such contiguous redevelopment project areas or those separated only by a public right-of-way are interdependent with those of the Englewood Neighborhood RPA, the City may determine that it is in the best interests of the City and in furtherance of the purposes of the Plan that net revenues from the Englewood Neighborhood RPA be made available to support any such redevelopment project areas, and vice versa. The City, therefore, proposes to utilize net incremental revenues received from the Englewood Neighborhood RPA to pay eligible redevelopment projects costs (which are eligible under the Industrial Jobs Recovery Law referred to above) in any such areas, and vice versa. Such revenues may be transferred or loaned between the Englewood Neighborhood RPA and such areas. The amount of revenue from the Englewood Neighborhood RPA so made available, when added to all amounts used to pay eligible Redevelopment Project Costs within the Englewood Neighborhood RPA or other areas as described in the preceding paragraph, shall not at any time exceed the total Redevelopment Project Costs described in Table 3 of this Redevelopment Plan.

If necessary, the redevelopment plans for other contiguous redevelopment project areas that may be or already have been created under the Act may be drafted or amended as applicable to add appropriate and parallel language to allow for sharing of revenues between such districts.

### ***Issuance of Obligations***

To finance project costs, the City may issue bonds or obligations secured by the anticipated tax increment revenue generated within the Englewood Neighborhood RPA, or such other bonds or obligations as the City may deem as appropriate. The City may require the utilization of guarantees, deposits or other forms of security made available by private sector developers to secure such obligations. In addition, the City may provide other legally permissible credit enhancements to any obligations issued pursuant to the Act.

All obligations issued by the City pursuant to this Redevelopment Plan and the Act shall be retired within the time frame described under "Phasing and Scheduling of the Redevelopment" above. Also, the final maturity date of any such obligations which are issued may not be later than 20 years from their respective dates of issue. One or more of a series of obligations may be sold at one or more times in order to implement this Redevelopment Plan. The amounts payable in any year as principal and interest on all obligations issued by the City shall not exceed the amounts available from tax increment revenues, or other sources of funds, if any, as may be provided by ordinance.

Obligations may be of parity or senior/junior lien nature. Obligations issued may be serial or term maturities, and may or may not be subject to mandatory, sinking fund, or optional redemptions.

In addition to paying redevelopment project costs, tax increment revenues may be used for the scheduled and/or early retirement of obligations, and for reserves, bond sinking funds and redevelopment project costs. To the extent that real property tax increment is not required for such purposes or otherwise required, pledged, earmarked, or otherwise designated for anticipated redevelopment costs, revenues shall be declared surplus and become available for distribution annually to area taxing districts in the manner provided by the Act.

### ***Most Recent Equalized Assessed Valuation of Properties in the Redevelopment Project Area***

The purpose of identifying the most recent equalized assessed valuation (“EAV”) of the Englewood Neighborhood RPA is to provide an estimate of the initial EAV which the Cook County Clerk will certify for the purpose of annually calculating the incremental EAV and incremental property taxes of the Englewood Neighborhood RPA. The 1999 EAV of all taxable parcels in the Englewood Neighborhood RPA is approximately \$68,700,000. The total EAV is subject to verification by the Cook County Clerk. After verification, the final figure shall be certified by the Cook County Clerk, and shall become the Certified Initial EAV from which all incremental property taxes in the Redevelopment Project Area will be calculated by Cook County. If the 2000 EAV shall become available prior to the date of adoption of the Redevelopment Plan by the City Council, the City may update the Redevelopment Plan by replacing the 1999 EAV with the 2000 EAV without further City Council action. The total EAV amounts by PIN for the RPA are summarized in Appendix 5.

Public assemblage of land for the new Kennedy King College campus is currently underway. The total 1999 EAV of the parcels anticipated to be acquired is approximately \$6,000,000. It is expected that some or all of this EAV will be removed from the total base certified EAV of the RPA prior to the date of this plan.

### ***Anticipated Equalized Assessed Valuation***

By 2024, the EAV for the Englewood Neighborhood RPA will be approximately \$164,900,000. This estimate is based on several key assumptions, including: (1) an inflation factor of 2% per year on the EAV of all properties within the Englewood Neighborhood RPA, with its cumulative impact occurring in each triennial reassessment year; (2) an equalization factor of 2.2505; and (3) a tax rate of 8.536% for the duration of the Englewood Neighborhood RPA.

## 6. Required Findings and Tests

### *Lack of Growth and Private Investment*

The City is required under the Act to evaluate whether or not the RPA has been subject to growth and private investment and must substantiate a finding of lack of such investment prior to establishing a tax increment financing district.

While some market-based investment has occurred in the Englewood Neighborhood RPA over the last five years, this investment has been minimal in scope and not part of any coordinated development strategy. From 1994 to 1999 the growth of equalized assessed valuation (“EAV,” which is the value of property from which property taxes are based) in the Englewood Neighborhood RPA has not only lagged behind that of the City of Chicago, but it has actually declined four (4) of five (5) years. The compound annual growth rate of EAV in the Englewood Neighborhood RPA was 0.6% between 1994 and 1999. This is nearly 84% lower than the 3.67% growth experienced by the City of Chicago during this period.

To further investigate a lack of growth and private investment within the Englewood Neighborhood RPA, *S. B. Friedman & Company* examined building permit data provided by the City of Chicago Department of Buildings for the period of January 1995 to November 2000. This data revealed that 1,360 permits totaling nearly \$56 million were issued within the Englewood Neighborhood RPA during this period. Approximately 426 of these permits were for building demolition and 110 were for Code Compliance. The remaining 824 permits (roughly \$52 million) were for new investment. This includes 159 permits for new construction and 665 permits for rehabilitation, mechanical upgrades, or minor repairs not in response to code violations. Of this new investment, approximately \$45 million (86.5%) was either publicly initiated or associated with property which has some level of public subsidy, including new affordable housing, a new public transit station, and repairs, alterations, or expansion of publicly owned buildings. Overall, it is estimated that only about \$7 million of the \$52 million in new investment (excluding demolitions and Code Compliance permits) in the RPA (13.5%) was completed by the private sector on its own, without public mandate or subsidy. This represents roughly \$1.2 million per year, or approximately 0.84% of the total market value of all property within the TIF district. At this rate, it would take a substantial amount of time to replace all of the existing value in the RPA.

*Finding: The Redevelopment Project Area (Englewood Neighborhood RPA) on the whole has not been subject to growth and development through investment by private enterprise and would not reasonably be anticipated to be developed without the adoption of the Redevelopment Plan.*

### ***But for...***

The City is required to find that, but for the designation of the TIF district and the use of tax increment financing, it is unlikely that significant investment will occur in the Englewood Neighborhood RPA.

Without the support of public resources, the redevelopment objectives of the Englewood

Neighborhood RPA would most likely not be realized. The scope of area-wide improvements and development assistance resources needed to rehabilitate the Englewood Neighborhood RPA as a viable residential district are expensive, and the private market, on its own, is not likely to absorb all these costs. Resources to assist with site assembly and preparation, public infrastructure improvements, and private property rehabilitation are needed to leverage private investment and facilitate area-wide redevelopment consistent with the Redevelopment Plan. TIF funds will be used to fund land assembly, site preparation, infrastructure improvements, and building rehabilitation. Accordingly, but for creation of the Englewood Neighborhood RPA, these projects, which would contribute substantially to area-wide redevelopment, are unlikely to occur without TIF designation for the Englewood Neighborhood RPA.

*Finding: But for the adoption of this Redevelopment Plan, critical resources will be lacking that would otherwise support the redevelopment of the Englewood Neighborhood RPA and the Englewood Neighborhood RPA would not reasonably be anticipated to be developed.*

### ***Conformance to the Plans of the City***

The Englewood Neighborhood RPA and Redevelopment Plan must conform to the comprehensive plan for the City, conform to the strategic economic development plans, or include land uses that have been approved by the Chicago Plan Commission.

The proposed land uses described in this Redevelopment Plan will be approved by the Chicago Plan Commission prior to its adoption by the City Council.

### ***Dates of Completion***

The dates of completion of the project and retirement of obligations are described under “Phasing and Scheduling of the Redevelopment” in Section 5 above.

### ***Financial Impact of the Redevelopment Project***

As explained above, without the adoption of this Redevelopment Plan and tax increment financing, the Englewood Neighborhood RPA is not expected to be redeveloped by private enterprise. Additionally, there is a genuine threat that blighting conditions will continue to exist and spread, and that the entire area will become a less attractive place to maintain and improve existing buildings and sites. The decline of property values within the RPA also may lead to a decline of property values in surrounding areas and could lead to a reduction of real estate tax revenue to all taxing districts.

This document describes the comprehensive redevelopment program proposed to be undertaken by the City to create an environment in which private investment can reasonably occur. The redevelopment program will be staged gradually over the life of the Englewood Neighborhood RPA. If a redevelopment project is successful, various new projects will be undertaken that will assist in alleviating blighting conditions, creating new jobs, and promoting rehabilitation and development in the Englewood Neighborhood RPA.

This Redevelopment Plan is expected to have short- and long-term financial impacts on the affected taxing districts. During the period when tax increment financing is utilized, real estate tax increment revenues from the increases in EAV over and above the certified initial EAV (established at the time of adoption of this document by the City) may be used to pay eligible redevelopment project costs for the Englewood Neighborhood RPA. At the time when the Englewood Neighborhood RPA is no longer in place under the Act, the real estate tax revenues resulting from the redevelopment of the Englewood Neighborhood RPA will be distributed to all taxing district levying taxes against property located in the Englewood Neighborhood RPA. These revenues will then be available for use by the affected taxing districts.

### ***Demand on Taxing District Services and Program to Address Financial and Service Impact***

In 1994, the Act was amended to require an assessment of any financial impact of a redevelopment project area on, or any increased demand for service from, any taxing district affected by the redevelopment plan, and a description of any program to address such financial impacts or increased demand.

The City intends to monitor development in the areas and with the cooperation of the other affected taxing districts will attempt to ensure that any increased needs are addressed in connection with any particular development. The following major taxing districts presently levy taxes on properties located within the Englewood Neighborhood RPA and maintain the listed facilities within the boundaries of the RPA:

#### **City of Chicago**

- Police Department - 7<sup>th</sup> District Headquarters (6120 S. Racine)
- Public Library - Kelly Branch (6151 S. Normal)

#### **Chicago Board of Education**

- Benjamin Banneker School (6656 S. Normal)
- Perkins Bass School (1140 W. 66<sup>th</sup> St.)
- Arna Wendell Bontemps School (1241 W. 58<sup>th</sup> St.)
- Nicholas Copernicus School (6010 S. Throop)
- Englewood Academy High School (6201 S. Stewart)
- Charles A. Hayes APC (6533 S. Stewart)
- Oliver Wendell Holmes School (955 W. Garfield)
- Joshua D. Kershaw School (6450 S. Lowe)
- Nicholson School (6006 S. Peoria)
- Dr. Samuel D. Proctor APC (838 W. Marquette)
- Walter Reed School (6350 S. Stewart)
- Woods Academy (6206 S. Racine)

#### **Chicago School Finance Authority**

#### **Chicago Park District**

- Carpenter Playlot Park (6153-57 S. Carpenter)
- Edmonds Playlot Park (711 W. 60<sup>th</sup> Pl.)
- Junction Grove Playlot Park (345 W. 64<sup>th</sup> St.)
- Luna Playlot Park (5558 S. Green)
- Moran Playground Park (5727 S. Racine)
- Ogden Park (6500 S. Racine)
- Periwinkle Playlot Park (30 W. Marquette)
- No. 437 Playlot Park (5653 S. Loomis)

**Chicago Community College District 508**

- Kennedy King College (6800 S. Wentworth - moving to a location within the RPA)

**Metropolitan Water Reclamation District of Greater Chicago****County of Cook****Cook County Forest Preserve District**

Map 7 illustrates the locations of facilities operated by the above listed taxing districts within the Englewood Neighborhood RPA.

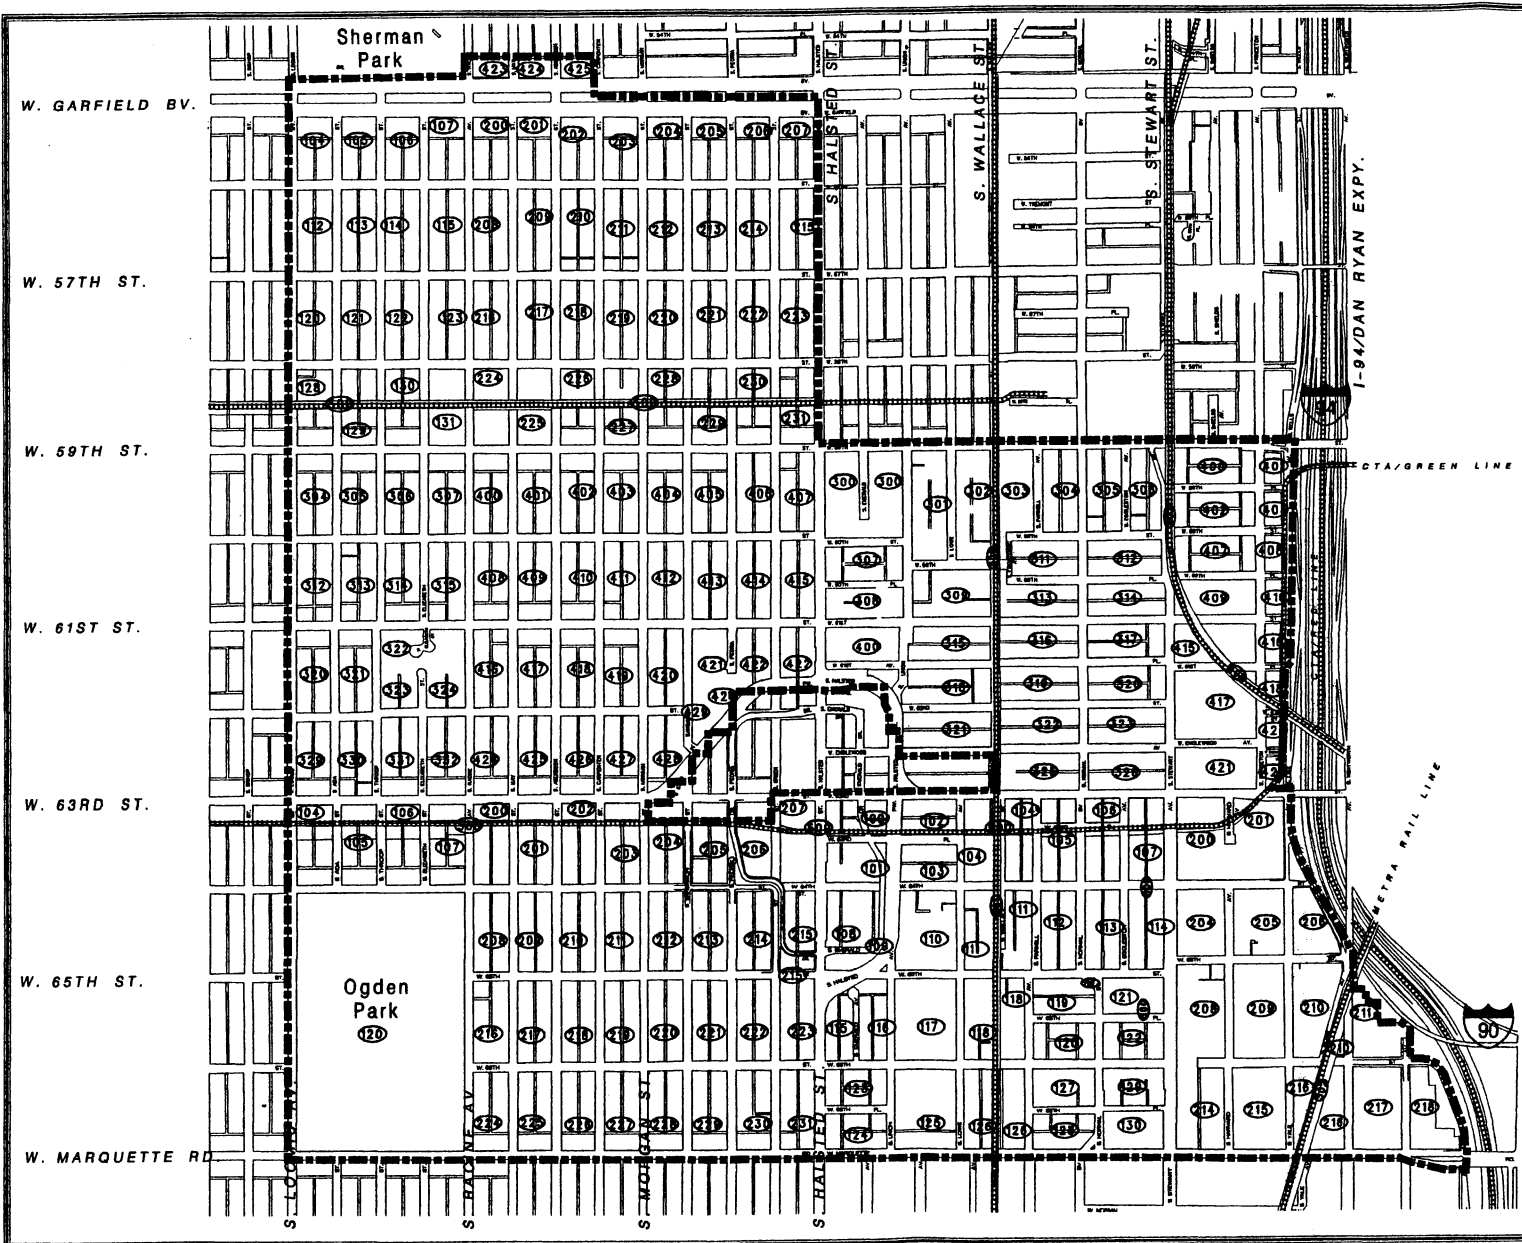

Redevelopment activity may cause increased demand for services from one or more of the above listed taxing districts. The anticipated nature of increased demands for services on these taxing districts, and the proposed activities to address increased demand are described below.

**City of Chicago.** The City is responsible for a wide range of municipal services, including: police and fire protection; capital improvements and maintenance; water supply and distribution; sanitation service; and building, housing and zoning codes.

Replacement of vacant and under-utilized buildings and sites with active and more intensive uses may result in additional demands on services and facilities provided by the districts. In addition to several public service facilities operated by the City within the Englewood Neighborhood RPA, there also are public facilities in close proximity to the area. Additional costs to the City for police, fire, library circulation, and recycling and sanitation services arising from residential and non-residential development may occur. However, it is expected that any increase in demand for the City services and programs associated with the Englewood Neighborhood RPA can be handled adequately by City police, fire protection, library, sanitary collection and recycling services, and programs maintained and operated by the City. The impact of the Englewood Neighborhood RPA will not require expansion of services in this area.

**Chicago Board of Education and Associated Agencies.** General responsibilities of the Board of Education include the provision, maintenance and operation of educational facilities and the provision of education services for kindergarten through twelfth grade.

Existing absorption capacity was verified through data provided from the Department of Operations

at the Chicago Public Schools (CPS). These data reveal that the public schools that are located within and serve the area within the Englewood Neighborhood RPA collectively operate at approximately 65.9% of full capacity and are able to accommodate more students. According to information provided by the CPS, elementary schools reach full capacity at 80% of their design capacity and high schools reach full capacity at 100% of their design capacity. Using these thresholds, only two (2) schools, Woods Academy and Oliver Wendell Holmes, out of the ten (10) schools located within the Englewood Neighborhood RPA are operating at or near full capacity. Furthermore, using these same thresholds we estimated the capacity for additional students for each of the schools within the RPA and determined that collectively there is room for an additional 4,116 students. This means that an increase in the number of students in the area can be supported.

We anticipate over the initial ten years of the 23-year life of the RPA, approximately 1,000 new residential units may be developed. Using the index provided by Ehlers & Associates (formerly the Illinois School Consulting Service) which estimates the population of children per residential dwelling, it is projected that these units could potentially generate approximately 660 school age children, well below the current estimated available capacity of 4,116 new students discussed above. In addition, many of the occupants of the new housing units may be existing neighborhood residents, meaning that the school age children generated by these units may already be attending a school within the RPA. Therefore, the actual net generation of new students may be less than 660. Finally, increased costs to the local schools resulting from children residing in TIF-assisted housing units would trigger those provisions within the Act that provide for reimbursement to the affected school district(s) where eligible.

The City intends to monitor development in the Englewood Neighborhood RPA and, with the cooperation of the Board of Education, will attempt to ensure that any increased demands for the services and capital improvements provided by the Board of Education are addressed in connection with each new residential project.

**Chicago Park District.** The Park District is responsible for the provision, maintenance and operation of park and recreational facilities through the City and for the provision of recreation programs.

It is expected that the households that may be added to the Englewood Neighborhood RPA may generate additional demand for recreational services and programs and may create the need for additional open spaces and recreational facilities operated by the Chicago Park District. The City intends to monitor development in the Englewood Neighborhood RPA and, with the cooperation of the Chicago Park District, will attempt to ensure that any increased demands for the services and capital improvements that may be provided by the Chicago Park District are addressed in connection with any particular residential development.

**Community College District 508.** This district is a unit of the State of Illinois' system of public community colleges, whose objective is to meet the educational needs of residents of the City and other students seeking higher education programs and services.

It is expected that any increase in demand for services from Community College District 508 can be

handled adequately by the district's existing service capacity, programs and facilities. Therefore, at this time no special programs are proposed for this taxing district. Should demand increase, the City will work with the affected district to determine what, if any, program is necessary to provide adequate services.

**Metropolitan Water Reclamation District.** This district provides the main trunk lines for the collection of waste water from Cities, Villages and Towns, and for the treatment and disposal thereof.

It is expected that any increase in demand for treatment of sanitary and storm sewage associated with the Englewood Neighborhood RPA can be handled adequately by existing treatment facilities maintained and operated by the Metropolitan Water Reclamation District of Greater Chicago. Therefore, no special program is proposed for the Metropolitan Water Reclamation District of Greater Chicago.

**County of Cook.** The County has principal responsibility for the protection of persons and property, the provision of public health services and the maintenance of County highways.

It is expected that any increase in demand for Cook County services can be handled adequately by existing services and programs maintained and operated by the County. Therefore, at this time, no special programs are proposed for these taxing districts. Should demand increase, the City will work with the affected taxing districts to determine what, if any, program is necessary to provide adequate services.

**Cook County Forest Preserve District.** The Forest Preserve District is responsible for acquisition, restoration and management of lands for the purpose of protecting and preserving open space in the City and County for the education, pleasure and recreation of the public. It is expected that any increase in demand for Forest Preserve services can be handled adequately by existing facilities and programs maintained and operated by the District. No special programs are proposed for the Forest Preserve.

Given the preliminary nature of the Redevelopment Plan, specific fiscal impacts on the taxing districts and increases in demand for services provided by those districts cannot accurately be assessed within the scope of this plan.

## ***7. Provisions for Amending Action Plan***

This Redevelopment Plan and Project document may be amended pursuant to the provisions of the Act.

## ***8. Commitment to Fair Employment Practices and Affirmative Action Plan***

The City is committed to and will require developers to follow and affirmatively implement the following principles with respect to this Redevelopment Plan. However, the City may implement programs aimed at assisting small businesses which may not be subject to these requirements.

- A. The assurance of equal opportunity in all personnel and employment actions with respect to this Redevelopment Plan and project, including, but not limited to, hiring, training, transfer, promotion, discipline, fringe benefits, salary, employment working conditions, terminations, etc. without regard to race, color, religion, sex, age, handicapped status, national origin, sexual preference, creed, or ancestry.
- B. Meeting City standards for participation of Minority Business Enterprise and Women Business Enterprise businesses as required in redevelopment agreements.
- C. The commitment to affirmative action and non-discrimination will ensure that all members of the protected groups are sought out to compete for all job openings and promotional opportunities.
- D. Meeting City standards for the hiring of City residents to work on redevelopment project construction projects.

<b>Total Blocks</b>							179	130		59			226					Area as a whole
<b>% of Total Blocks</b>							N/A	N/A		N/A			100%					qualified in four
<b>% of Blocks w/Improved Parcels</b>							80%	N/A		N/A			N/A					out of the last
<b>% of Blocks w/Buildings</b>							N/A	60%		27%			N/A					five years.

\* Age is not a qualifying factor for blighted areas under the Act

\*\* EAV growth was calculated on an aggregate basis for the RPA as a whole. Both the area as a whole and the improved parcels only qualified for the Lack of Growth in EAV factor in four out of the last five years.

**Appendix 2: Block-by-Block Distribution of Eligibility Factors**

Table 2: Vacant Land Factors

- (1) xx signifies those factors present to a major extent.
- (2) x signifies those supporting factors present to minor extent.
- (3) Gray shaded columns indicate that these factors are not present within the proposed RPA to either a minor or major extent.

<b>Total Blocks</b>				Area as a whole		174		Area as a whole qualified in	
<b>% of Blocks w/Vacant Parcels</b>				qualifies.		77%		four out of the last five years.	

\* Diversity of Ownership was found to be present to a meaningful extent throughout the entire area.

\*\* EAV growth was calculated on an aggregate basis for the RPA as a whole. The area qualified for the Lack of Growth in EAV factor in four out of the last five years.

I, RICHARD M. DALEY, in connection with the annual report (the "Report") of information required by Section 11-74.4-5(d) of the Tax Increment Allocation Redevelopment Act, 65 ILCS5/11-74.4-1 et seq., (the "Act") with regard to the Englewood Neighborhood Redevelopment Project Area (the "Redevelopment Project Area"), do hereby certify as follows:

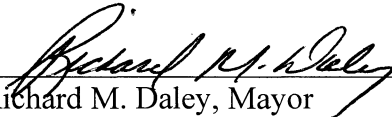

1. I am the duly qualified and acting Mayor of the City of Chicago, Illinois (the "City") and, as such, I am the City's Chief Executive Officer. This Certification is being given by me in such capacity.

2. During the preceding fiscal year of the City, being January 1 through December 31, 2001, the City complied, in all material respects, with the requirements of the Act, as applicable from time to time, regarding the Redevelopment Project Area.

3. In giving this Certification, I have relied on the opinion of the Corporation Counsel of the City furnished in connection with the Report.

4. This Certification may be relied upon only by the addressees hereof.

IN WITNESS WHEREOF, I have hereunto affixed my official signature as of this 28th day of June, 2002.

  
Richard M. Daley, Mayor  
City of Chicago, Illinois

Re: Englewood Neighborhood Redevelopment Project Area (the  
"Redevelopment Project Area")

Dear Addressees:

I am Corporation Counsel of the City of Chicago, Illinois (the "City"). In such capacity, I am providing the opinion required by Section 11-74.4-5(d)(4) of the Tax Increment Allocation Redevelopment Act, 65 ILCS 5/11-74.4-1 et seq. (the "Act"), in connection with the submission of the report (the "Report") in accordance with, and containing the information required by, Section 11-74.4-5(d) of the Act for the Redevelopment Project Area.

June 28, 2002

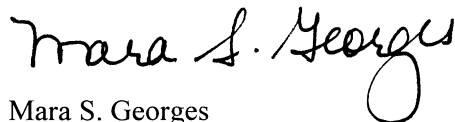

Attorneys, past and present, in the Law Department of the City familiar with the requirements of the Act have had general involvement in the proceedings affecting the Redevelopment Project Area, including the preparation of ordinances adopted by the City Council of the City with respect to the following matters: approval of the redevelopment plan and project for the Redevelopment Project Area, designation of the Redevelopment Project Area as a redevelopment project area and adoption of tax increment allocation financing for the Redevelopment Project Area, all in accordance with the then applicable provisions of the Act. Various departments of the City, including, if applicable, the Law Department, Department of Planning and Development, Department of Housing, Department of Finance and Office of Budget and Management, have personnel responsible for and familiar with the activities in the Redevelopment Project Area affecting such Department(s) and with the requirements of the Act in connection therewith. Such personnel are encouraged to seek and obtain, and do seek and obtain, the legal guidance of the Law Department with respect to issues that may arise from time to time regarding the requirements of, and compliance with, the Act.

In my capacity as Corporation Counsel, I have relied on the general knowledge and actions of the appropriately designated and trained staff of the Law Department and other applicable City Departments involved with the activities affecting the Redevelopment Project Area. In addition, I have caused to be examined or reviewed by members of the Law Department of the City the certified audit report, to the extent required to be obtained by Section 11-74.4-5(d)(9) of the Act and submitted as part of the Report, which is required to review compliance with the Act in certain respects, to determine if such audit report contains information that might affect my opinion. I have also caused to be examined or reviewed such other documents and records as were deemed necessary to enable me to render this opinion. Nothing has come to my attention that would result in my need to qualify the opinion hereinafter expressed, subject to the limitations hereinafter set forth, unless and except to the extent set forth in an Exception Schedule attached hereto as Schedule 1.

Based on the foregoing, I am of the opinion that, in all material respects, the City is in compliance with the provisions and requirements of the Act in effect and then applicable at the time actions were taken from time to time with respect to the Redevelopment Project Area.

This opinion is given in an official capacity and not personally and no personal liability shall derive herefrom. Furthermore, the only opinion that is expressed is the opinion specifically set forth herein, and no opinion is implied or should be inferred as to any other matter. Further, this opinion may be relied upon only by the addressees hereof and the Mayor of the City in providing his required certification in connection with the Report, and not by any other party.

Very truly yours,

Mara S. Georges  
Corporation Counsel

### **(7) STATEMENT OF ACTIVITIES - 65 ILCS 5/11-74.4-5(d)(7)**

- (A)** Projects implemented in the preceding fiscal year.
- (B)** A description of the redevelopment activities undertaken.
- (C)** Agreements entered into by the City with regard to disposition or redevelopment of any property within the Project Area.
- (D)** Additional information on the use of all Funds received by the Project Area and steps taken by the City to achieve the objectives of the Redevelopment Plan.
- (E)** Information on contracts that the City's consultants have entered into with parties that have received, or are receiving, payments financed by tax increment revenues produced by the Project Area.
- (F)** Joint Review Board reports submitted to the City.
- (G)** Project-by-project review of public and private investment undertaken from 11/1/00 to 12/31/01, and of such investments expected to be undertaken in Year 2002; also, a project-by-project ratio of private investment to public investment from 11/1/00 to 12/31/01, and an estimated ratio of such investments as of the completion of each project and as estimated to the completion of the redevelopment project.

SEE TABLES AND/OR DISCUSSIONS ON FOLLOWING PAGES.

## **Englewood Neighborhood Redevelopment Project Area 2001 Annual Report**

---

### **(7)(A) - 65 ILCS 5/11-74.4-5(d)(7)(A)**

During 2001, no projects were implemented.

### **(7)(B) - 65 ILCS 5/11-74.4-5(d)(7)(B)**

Redevelopment activities undertaken within this Project Area during the year 2001, if any, have been made pursuant to i) the Redevelopment Plan for the Project Area, and ii) any Redevelopment Agreements affecting the Project Area, and are set forth on Table 5 herein by TIF-eligible expenditure category.

### **(7)(C) - 65 ILCS 5/11-74.4-5(d)(7)(C)**

During 2001, no agreements were entered into with regard to the disposition or redevelopment of any property within the Project Area.

## **Englewood Neighborhood Redevelopment Project Area 2001 Annual Report**

---

**(7)(D) - 65 ILCS 5/11-74.4-5(d)(7)(D)**

The Project Area has not yet received any increment.

**(7)(E) - 65 ILCS 5/11-74.4-5(d)(7)(E)**

During 2001, no contracts were entered into by the City's tax increment advisors or consultants with entities or persons that have received, or are receiving, payments financed by tax increment revenues produced by the Project Area.

## **Englewood Neighborhood Redevelopment Project Area 2001 Annual Report**

---

**(7)(F) - 65 ILCS 5/11-74.4-5(d)(7)(F)**

Joint Review Board Reports were submitted to the City. See attached.

**(7)(G) - 65 ILCS 5/11-74.4-5(d)(7)(G)**

During 2001, no public investment was undertaken in the Project Area. As of December 31, 2001, no public investment is estimated to be undertaken for 2002.

CITY OF CHICAGO  
JOINT REVIEW BOARD

Report of proceedings of a hearing  
before the City of Chicago, Joint Review  
Board held on April 13, 2001, at 10:03 a.m.  
City Hall, Room 1003, Conference Room,  
Chicago, Illinois, and presided over by  
Mr. John McCormick, Chairman.

PRESENT:

JOHN McCORMICK, CHAIRMAN  
L. D. BARRON  
SUSAN MAREK  
MARK TODD-THOMAS  
HENRY P. WILSON  
ROBERT L. RICE  
DAVID STAMM  
STEVE FRIEDMAN  
CINDY THOMAS

REPORTED BY: Accurate Reporting Service  
200 N. LaSalle Street  
Chicago, Illinois  
By: Jack Artstein, C.S.R.

1                   MR. McCORMICK: John McCormick, from  
2 the City of Chicago.

3                   MS. MAREK: Susan Marek, Chicago  
4 Board of Education.

5                   MR. BARRON: L. D. Barron, Cook  
6 County Department of Planning and  
7 Development.

8                   MR. WILSON: Henry Wilson, Public.

9                   MR. McCORMICK: For the record, my  
10 name is John McCormick. I'm a representative  
11 of the City of Chicago which under Section  
12 11-74.4-5 of the Tax Increment Allocation  
13 Redevelopment Act is one of the Statutorily  
14 Designated Members of the Joint Review  
15 Board.

16                   Until election of a Chairperson I  
17 will moderate the Joint Review Board  
18 meetings. For the record there will be a  
19 meeting of the Joint Review Board to review  
20 the proposed Englewood Neighborhood Tax  
21 Increment Financing District.

22                   The date of the meeting was  
23 announced at and set by the Community  
24 Development Commission of the City of

1 Chicago at its meeting of March 13<sup>th</sup>, 2001.  
2 Notice of this meeting of the Joint Review  
3 Board was also provided by certified mail to  
4 each taxing district represented on the  
5 Board which includes the Chicago Board of  
6 Education, the Chicago Community Colleges,  
7 District 508, the Chicago Park District,  
8 Cook County, and the City of Chicago and the  
9 public member.

10 Public notice of this meeting was  
11 also posted as of Wednesday April 11<sup>th</sup>, 2001  
12 in various locations throughout City Hall.  
13 When a proposed Redevelopment Plan would  
14 result in displacement of residents from ten  
15 or more inhabited residential units, or  
16 would include 75 or more inhabited  
17 residential units, the TIF Act requires that  
18 the Public Member of the Joint Review Board  
19 must reside in the Proposed Redevelopment  
20 Project Area.

21 In addition if the  
22 municipality's Housing Impact Study  
23 determines that the majority of residential  
24 units in the Proposed Redevelopment Project

1 Area are occupied by very low, low or  
2 moderate income households as defined in  
3 Section 3 of the Illinois Affordable Housing  
4 Act, the Public Member must be a person who  
5 resides in very low, low, or moderate income  
6 housing within the Proposed Redevelopment  
7 Project Area.

8 Although the City of Chicago's  
9 Proposed Redevelopment Plan for the  
10 Englewood Neighborhood District do not  
11 include the Housing Impact Studies because  
12 the Plan certified that no displacement of  
13 inhabited residential units will occur, the  
14 City has attempted to find a resident of each  
15 of these areas to fill the position of the  
16 Public Member.

17 MS. THOMAS: For the record, my name  
18 is Cindy Thomas with the Department of  
19 Planning and Development. We did do a  
20 Housing Impact Study in the Englewood Area.  
21 It's part of the Plan. And we did that  
22 because the Area contains more than 75  
23 inhabited residential units and we cannot  
24 certify at this time that none of those units

1 will be displaced over the 23 year life of  
2 the Plan.

3 MR. McCORMICK: Okay. That's good --  
4 half my script is missing here. I think,  
5 okay, with us today, I'm sorry, is Henry  
6 Wilson. Are you familiar with the boundaries  
7 of the proposed Englewood Neighborhood Tax  
8 Increment Financing Redevelopment Project  
9 Area?

10 MR. WILSON: Yes.

11 MR. McCORMICK: Okay. Why don't I  
12 interrupt here and we've been joined by.

13 MR. TODD-THOMAS: Mark Todd-Thomas.

14 MR. McCORMICK: Okay.

15 MR. TODD-THOMAS: And I'm with Gary  
16 Gordon.

17 MR. McCORMICK: Okay, fine, with the  
18 Park District.

19 MR. TODD-THOMAS: Thank you.

20 MR. McCORMICK: What is the address  
21 of your primary residence?

22 MR. WILSON: 6508 South Sangleman  
23 (phonetic).

24 MR. McCORMICK: Good. Is such

1 address within the boundaries of the  
2 proposed Englewood Neighborhood Tax  
3 Increment Financing Redevelopment Project  
4 Area?

5 MR. WILSON: Yes.

6 MR. McCORMICK: Have you provided  
7 representatives of the City of Chicago=s  
8 Department of Planning and Development with  
9 accurate information concerning your income  
10 and income of any other members of the  
11 household residing at such address?

12 MR. WILSON: Yes.

13 MR. McCORMICK: Based on information  
14 provided to you by the Department of Planning  
15 and Development regarding applicable income  
16 level for very low, low, and moderate income  
17 household, do you qualify as a member of very  
18 low, low or moderate income household?

19 MR. WILSON: Yes.

20 MR. McCORMICK: Okay. Mr. Wilson,  
21 are you willing to serve as the Public Member  
22 for the Joint Review Board for the Englewood  
23 Neighborhood Tax Increment Financing  
24 Redevelopment Project Area?

1 MR. WILSON: Yes.

2 MR. McCORMICK: Okay. I will  
3 entertain a motion that Henry Wilson be  
4 selected as the Public Member. Is there a  
5 motion?

6 MR. BARRON: So moved.

7 MR. McCORMICK: Is there a second?

8 MS. MAREK: Second.

9 MR. McCORMICK: All in favor please  
10 vote by saying aye.

11 (Chorus of ayes.)

12 All opposed please vote by saying  
13 no. Let the record reflect that Harry Wilson  
14 has been selected as the Public Member of the  
15 Englewood Neighborhood Tax Increment  
16 Financing Redevelopment Project Area. Our  
17 next order of business is to select a  
18 Chairperson for this Joint Review Board. Are  
19 there any nominations?

20 MR. MAREK: I nominate John  
21 McCormick.

22 MR. McCORMICK: Is there a second for  
23 the nominations?

24 MR. WILSON: Second.

1 MR. BARRON: Second.

2 MR. McCORMICK: Are there any other  
3 nominations? Let the record reflect that  
4 there are no other nominations. All in favor  
5 of this nomination please vote by saying aye.

6 (Chorus of ayes.)

7 All opposed please vote by saying  
8 no. Let the record reflect that John  
9 McCormick has been elected as Chairperson  
10 and will now serve as Chairperson for the  
11 remainder of the meeting.

12 As I mentioned at this meeting we  
13 will be reviewing a Plan for the Englewood  
14 Neighborhood TIF District proposed by the  
15 City of Chicago. Staff of the City=s  
16 Department of Planning and Development and  
17 Law and other Departments have reviewed the  
18 Plan which was introduced to the City=s  
19 Community Development Commission on March  
20 13<sup>th</sup>, 2001.

21 We will listen to a presentation  
22 by the Consultant on the Plan. Following the  
23 presentation we can address any questions  
24 that members might have for the Consultant or

1 City Staff. The recent Amendment to the TIF  
2 Act requires us to base our recommendations  
3 to approve or disapprove of the Englewood  
4 Neighborhood Plan and the Designation of the  
5 Englewood Neighborhood TIF Area on the basis  
6 of the Area and the Plan satisfying Plan  
7 Requirements, the Eligibility Criteria  
8 defined in the TIF Act, and Objectives of the  
9 TIF Act.

10 If the Board approves the Plan  
11 and Designation of the Area, the Board will  
12 then issue an advisory non-binding  
13 recommendation by the vote of the majority of  
14 these members present and voting. Such  
15 recommendation shall be submitted to the  
16 City within 30 days after the Board meeting.  
17 Failure to submit such a recommendation  
18 shall be deemed to constitute approval by the  
19 Board.

20 If the Board disapproves the Plan  
21 and Designation of the Area the Board must  
22 issue a written report describing why the  
23 Area, the Plan and the Area fail to meet one  
24 or more of the objectives of the TIF Act and

1 both the Plan Requirements and Eligibility  
2 Criteria of the Act.

3 The City will then have 30 days  
4 to resubmit the revised plan. The Board and  
5 the City must also confer during this time to  
6 try to resolve the issues that led to the  
7 Board=s disapproval. If such issues cannot  
8 be resolved or a revised plan is disapproved  
9 the City may proceed with the Plan, but the  
10 Plan can be proved only by three fifths of  
11 the vote of the City Council, excluding  
12 positions of Members that are vacant and  
13 those Members that are ineligible to vote  
14 because of conflicts of interest.

15 Okay. I think we can start our  
16 presentation. This is Englewood  
17 Neighborhood District. The Consultant is S.  
18 B. Friedman and Company.

19 (Pause.)

20 MR. FRIEDMAN: Thank you very much  
21 John. For the record my name is Steve  
22 Friedman, I=m the President of S. B. Friedman  
23 and Company, and joining me today are David  
24 Stamm, a Project Manager, and Bob Rice, an

1        associate and they were the Staff Members who  
2        did, who were principally responsible for  
3        doing the work involved and this is a very  
4        large TIF. So there was a lot of Staff  
5        involved in it.

6                    I'm going to ask them to start  
7        out and we'll start out by talking about the  
8        boundaries and the eligibility factors and  
9        then we will talk about the goals of the Plan  
10       and following that we're going to talk about  
11       the Housing Impact Study and also the  
12       potential of impact on the schools, because  
13       this is a residentially oriented TIF. So  
14       we've addressed that issue.

15                    So David and Bob would you start  
16       with the boundaries and the eligibility.

17                    MR. STAMM: I'm David Stamm, I'll  
18       start out with the boundaries of the TIF.  
19       Generally described, northern boundary is  
20       Garfield Boulevard and 59<sup>th</sup> Street with --  
21       Street being the eastern boundary of this  
22       northern piece of the TIF.

23                    Eastern boundary is the Dan Ryan  
24       Expressway. The southern boundary is

1 Marquette Road and the western boundary is  
2 Loomis Avenue. There are, there=s one  
3 adjacent existing TIF and one TIF adjacent  
4 that is proposed. The Englewood Mall Area  
5 TIF is wholly contained within our TIF  
6 District and is not included within the  
7 boundaries, and that is an existing TIF.  
8 And the 47<sup>th</sup> and Halstead TIF that is  
9 currently proposed abuts our boundaries on  
10 the north along Garfield and also along  
11 Halstead.

12 The Englewood Neighborhood TIF  
13 District consists of approximately 7,477 tax  
14 parcels and 3,991 buildings on 226 blocks.  
15 Approximately 2,201 or about 30 percent of  
16 the parcels in the District are vacant. And  
17 the District contains approximately 1,200  
18 acres of land.

19 On the second map identifies the  
20 generally land use pattern TIF district.  
21 This represents the predominant land use,  
22 usually on a block, unless there were larger  
23 concentrations identified.

24 So, not necessarily the only land

1 use on the block, but you'll see that the  
2 Area is predominantly residential. We  
3 identified six different land uses,  
4 residential, vacant land as indicated by  
5 black, commercial, public and institutional  
6 which includes public facilities, hospitals,  
7 there's social services, parks and open  
8 space.

9 Ogden Park is the major park in  
10 the area and there is also seven other  
11 smaller parks and play lots. And a small bit  
12 of light industrial scattered by mostly in  
13 the form of salvage yards or other sorts of  
14 light industrial.

15 MS. MAREK: Excuse me, did you say  
16 that 30 percent of the lots were vacant? So  
17 then in that residential area scattered  
18 sites that are --

19 MR. STAMM: Within, most of these  
20 blocks are upwards of 30, 50 percent or more  
21 vacant.

22 MS. MAREK: Oh.

23 MR. STAMM: But individual scattered  
24 lots that are maybe you know a lot

1 interspersed here and there or several  
2 together, but it's very widely scattered. So  
3 there=s a large amount of vacant land.

4 MR. FRIEDMAN: The black areas are  
5 areas of concentrated vacant land.  
6 Concentrated enough that we=re able to  
7 identify them on the map at this scale and  
8 have you still be able to read it.

9 MR. STAMM: Okay. I'll move on to  
10 the Eligibility Analysis. We found that the  
11 proposed Englewood Neighborhood TIF District  
12 is eligible for designation as a blighted  
13 area. Five of the Eligibility Factors  
14 present to a major extent, including  
15 deterioration, which was present in 23  
16 percent of the buildings on 36 percent of the  
17 improved parcels that had deterioration  
18 infrastructure and parking areas and that  
19 sort and overall, found to a major extent on  
20 80 percent of the blocks.

21 Second, structures below minimum  
22 code standards. Nearly one out of every four  
23 or 23 percent of the buildings were found to  
24 have a code violation within the last five

1 years and this represent, was present on 60  
2 percent of all of the blocks in the TIF.  
3 Third, excessive vacancies, we found present  
4 in 10 percent of the buildings, which  
5 represented 27 percent of all blocks in the  
6 TIF where this was present to a major extent.  
7 Lack of growth and Equalized Assessed Value.

8 The EAV of the TIF, of the  
9 Proposed TIF District has declined in four  
10 out of the past five years in reference to  
11 the City where the City overall increased.  
12 And then finally, inadequate utilities, all  
13 of the blocks in the TIF based on sewer and  
14 water addresses obtained from the City  
15 Departments are either 100 years old or older  
16 or have reached the end of their useful life  
17 or are set for being upgraded and expanded by  
18 the Departments.

19 So we concluded that --  
20 represented inadequate utilities for the  
21 Area. And in addition, even though the Area  
22 was qualified as an Improved TIF District we  
23 found three of the Eligibility Factors for  
24 vacant land, which included first,

1 deterioration of structures of site  
2 improvements adjacent to the vacant land,  
3 which was found to be present on 71 percent  
4 of the vacant parcels, or within 84 percent  
5 of the blocks that contained vacant land.  
6 I think there were, there was a total of 206  
7 blocks that had some amount of vacant land  
8 within it. Second, diversity of ownership.

9           There were 2,201 vacant parcels  
10 and we well over 1,000 different tax payers  
11 for those individual lots. So we felt that  
12 that represented a large diversity of  
13 ownership which could impede redevelopment  
14 efforts.

15           And then finally the lack of  
16 growth in EAV. If you separate out just the  
17 vacant parcels from the overall TIF District  
18 the EAV of those parcels declined in every  
19 one of the last five years.

20           And so we found that factors were  
21 present to qualify as a blighted district and  
22 as part of the other required findings for an  
23 eligible TIF District we have to find that  
24 there=s a lack of private investment taking

1 place in the Area prior to establishing the  
2 District.

3 We found that although some  
4 investment has taken place in the last five  
5 years it=s been minimal in scope. Total  
6 private investment amounts to approximately  
7 \$1.2 million per year over the past five  
8 years, looking at building permit data.  
9 This represents about .84 percent of the  
10 total market value of all property within the  
11 TIF District, so at this rate it would take  
12 the private market a substantial amount of  
13 time to replace the current market value of  
14 the TIF District.

15 So given that, we concluded that  
16 the, given the cost that would be involved in  
17 redeveloping an area of this size and the  
18 extent of vacant land and deteriorated  
19 property and the lack of private investment  
20 to this point in the area, that the private  
21 market would not be able to, is not showing  
22 any capacity to undertake these investments  
23 and that the Area would be eligible for a TIF  
24 District.

1                   So with that I'll turn it over to  
2 Steve to talk about the Redevelopment.

3                   MR. FRIEDMAN: Thank you David. The  
4 primary goals of this TIF District is  
5 residential. This is called the Englewood  
6 Neighborhood TIF for the purpose, for the  
7 reason that what we would, are recommending,  
8 what we would like to see happen is this  
9 basically be redeveloped, revitalized --  
10 housing and rehabilitation of the existing  
11 stock.

12                   And you'll see that is basically  
13 reflected in the simplification, and this is  
14 obviously very simplified, but we again  
15 we're talking about residential as the  
16 predominant land use. This is called  
17 residential public institutional open space.  
18 So it includes institutions. The portion of  
19 the campus for the new Kennedy King College  
20 is within this District.

21                   Then we along the more major  
22 thoroughfares we are expecting to maintain a  
23 mixed use pattern of residential and  
24 commercial, which parallels to some extent

1 the existing. But as we will find I think in  
2 most of the City in this era, the market, we  
3 will push this as much toward residential as  
4 possible.

5 And when people are dealing with  
6 the real planning they will try to bring the  
7 commercial into workable nodes. Light  
8 industrial or commercial. There's one area  
9 which seems to be worthy of being maintained  
10 in that way. It's an entire block depth  
11 rather than just a face.

12 And then parks and open space.  
13 And one would hope of course that as the  
14 residential development emerges that there  
15 will be additional parks and open space that  
16 become part of that as a general goal.

17 The objectives that we've  
18 identified include facilitating assembly,  
19 preparation and marketing of vacant and  
20 underutilized sites for infill development.  
21 Obviously that's a lot, there's a lot there  
22 and where there's 1,000 owners and 3,000  
23 parcels.

24 Including the conveyance of

1 City-owned lots at minimal prices to  
2 adjoining residents for maintenance and  
3 reactivation of those parcels whose  
4 potential development has been hindered by  
5 tax delinquencies. In many cases the land,  
6 the tax delinquencies on the property is more  
7 than the property is worth.

8 Create opportunities for  
9 development of new affordable housing by  
10 providing assistance to developers, to  
11 reduce the purchase price of new homes so as  
12 to increase home ownership in the RPA.

13 This could be done in conjunction  
14 with and leveraging the New Homes for Chicago  
15 Program or other variants of programs that  
16 the City is developing. And as you know we  
17 never really do a TIF in isolation from all  
18 the other programmatic efforts. But this  
19 allows some funds to be used jointly with  
20 these other programs.

21 Enhancing neighborhood  
22 appearance and improving the quality of the  
23 existing housing stock by supporting  
24 rehabilitation of residences in the RPA.

1       Should a lending institution be able to be  
2       found to do this, it is the City's interest  
3       to bring about a TIF NIF program.

4                   One of the complications in this  
5       neighborhood, however, is that there=s a  
6       very high degree of, high percentage of  
7       renter occupancy and investor owned  
8       buildings and we will be, the City will have  
9       to explore ways to responsibly invest in,  
10      invest their own housing for rehabilitation.  
11      And that=s not been done yet in any of the  
12      other NIF, Neighborhood Investment Fund  
13      programs.

14                   So that's something people are  
15      aware of, but the, and the intent is to  
16      figure out how to use this money for rehab.  
17      Creating a physical environment conducive to  
18      all of this development by the creation of  
19      and support of infrastructure.

20                   Again, leveraging and in tandem  
21      with the other capital budgeting decisions  
22      of the City. Encouraging new neighborhood  
23      level commercial uses and light industrial  
24      development at selective locations.

1 Promoting opportunities to women and  
2 minority owned and locally owned businesses  
3 to share in the job and construction  
4 opportunities.

5 And for supporting job training  
6 programs, and coordinating again the goals  
7 with the other activities of the other  
8 Departments of the City.

9 Now since we are talking about a  
10 residentially oriented TIF, we are talking  
11 about rehab, we are talking about a TIF in  
12 which there are some 15,000 housing units  
13 which by the way the notification provision  
14 under the new Act where we had to notify  
15 every residential unit, resulted in a one  
16 public meeting with over 1,200 people at it.

17 So we have plowed new ground here  
18 for public involvement, or at least  
19 awareness. But we did that for a look at the  
20 potential impacts on existing housing and  
21 I'm going to ask Bob Rice to talk briefly  
22 about the methodology we used to evaluate  
23 that and what we think that impact might be.

24 MR. RICE: Per the requirements in

1 the Act we initially identified you know the  
2 type of buildings which are single-family,  
3 multi-family et cetera, and that was done in  
4 the field, doing -- survey, -- what we do in  
5 conjunction with everything else that do to  
6 each -- eligibility.

7 We also determined the number of  
8 rooms and, or we estimated the number of  
9 rooms and the breakout of bedroom type based  
10 on Census data where we actually took a  
11 percentage breakdown from the 1990 Census  
12 and applied it to the current number of units  
13 that we had identified in the field. So we  
14 were able to come up with that information.

15 And as a further part of the  
16 initial section of the Housing Impact Study  
17 we determined the racial and ethnic  
18 composition based on -- data which is a firm  
19 that has projection data based on Census and  
20 other types of information we were able to  
21 come up with -- entire section based on that  
22 data.

23 Now, the overall goal of the, as  
24 Steve just said it is really to create infill

1 housing to rehabilitate current housing, as  
2 well as to create affordable housing. And  
3 because of that we don't really anticipate or  
4 initially anticipate displacement at all.

5 But over the course of 23 years  
6 there's a possibility for displacement.

7 So to identify potential  
8 inhabited units that may be removed or  
9 displaced we looked at buildings that were  
10 identified as dilapidated in field work as  
11 probably the most susceptible to some type of  
12 removal or transition.

13 And from doing that we then  
14 figured out, we basically analyzed and  
15 looked at the number of inhabited units,  
16 buildings, and came up with 42. So out of  
17 you know the entire -- we have only 42 units  
18 that we anticipate as potential  
19 displacement.

20 From that we even looked at the  
21 possibility for replacement housing based on  
22 projected development that we currently know  
23 that's coming, as well as the development  
24 that we anticipate over the course of 23

1 years, the projections that we did  
2 internally, and we found out there's ample  
3 room to accommodate these 42 units over the  
4 next 23 years.

5 And again because the goal is to  
6 create infill housing we found that you know  
7 there would be most likely or even definitely  
8 net gain units over any possible or potential  
9 displacement in the future.

10 MR. FRIEDMAN: And a core part of  
11 that is the idea that the TIF funds would  
12 only get involved -- deteriorated units  
13 that, in terms of the occupied units, many of  
14 them are vacant already and there's so much  
15 vacant land.

16 So those are the premises in  
17 which we concluded that that only such a  
18 small number would be impacted, even though  
19 there's such a large number of units as a  
20 district. It's an infill oriented and rehab  
21 and rehab will not necessarily displace  
22 people, except in these very few, very  
23 deteriorated, in the very deteriorated  
24 units.

1                   Now the other issue that we felt  
2 was important here, as we go through and look  
3 at the impacts on all the other taxing  
4 bodies, and we were concerned about directly  
5 the impact on the school district because we  
6 are talking about a significant amount of  
7 residential infill.

8                   The, what we did to try to get a  
9 handle on that is we, we took the  
10 anticipated, in the first ten years of the  
11 TIF, and we anticipated housing development  
12 that might occur. And we applied factors on  
13 school children generation -- but the number  
14 of children that would be expected to reside  
15 in houses of different sizes and types.

16                   And we based those numbers on a  
17 study that was formerly called the Illinois  
18 School Consulting Service Study of  
19 Population Generation Factors that was  
20 currently provided by Ellerson Associates  
21 (phonetic), which bought that --

22                   The last time the site was  
23 updated was 1996 and it is the most current  
24 available. Now it is regional. It could, it

1       could, it could underestimate, it could  
2       overestimate. We don't have a way of bench  
3       marking until the 2000 Census comes out and  
4       where special, and even that won't do that  
5       much, but special studies would have to be  
6       done to further evaluate the number of  
7       children that are likely to reside in houses  
8       of particular sizes.

9                       However, using these regional  
10       factors, we estimated about 660 school age  
11       children would be likely to result from the  
12       residential development that we are  
13       projecting.

14                      The, we did not take a split on  
15       this for parochial versus public. So we're  
16       assuming all of these children would be  
17       looking to go to public schools. We  
18       estimated based on the Board of Education  
19       information that the available spaces in the  
20       existing schools are four times the  
21       estimated number of children that would be  
22       generated.

23                      So in this particular area, even  
24       though one of our community meetings we heard

1 people talk about some school crowding, it  
2 appears from the data we were able to get  
3 using the official sources, that in the  
4 particular area involved, the schools  
5 serving this particular subarea of Englewood  
6 do have capacity by a multiple of almost four  
7 to handle the number of children that we  
8 estimate.

9 So we think that that is a  
10 manageable, from a capital standpoint should  
11 be a manageable impact from the school  
12 district and certainly in there are  
13 conditions that emerge as in all TIFs the  
14 City is committed to monitoring the  
15 situation.

16 With that I will turn it back to  
17 you for questions.

18 MR. McCORMICK: Yeah, do any of the  
19 members have any questions?

20 MS. MAREK: Well, I just think this is  
21 a real interesting TIF for us because we're  
22 just starting a program on determinate  
23 housing to work on the issue of affordable  
24 housing for our teachers.

1                   You know in much of the City the  
2 housing prices are just getting beyond the  
3 means of anyone, especially our kind of entry  
4 level and teachers that have been here three  
5 to five years.

6                   So I'm wondering if there might  
7 be some ways that we could kind of team up  
8 with the Developers or potential investors  
9 in this area so that they could you know,  
10 work with.

11                   MR. FRIEDMAN: Well you're already  
12 tied up with housing which is good because  
13 you're, I would guess, I would think given  
14 the market in this area that initially for  
15 the next few years that almost all of that  
16 housing that is built is going to have an  
17 involvement in the Department of Housing.

18                   There will be not too much that  
19 is pure market. And I think the New Homes  
20 Program is likely to be used. I think that  
21 next after that the Home Start program is  
22 likely to be used.

23                   As the market firms up a little  
24 bit, in the Home Start Program there is no

1       subsidy to the cost, but the land is free.  
2       In the subsidy there is an assistance to the  
3       Developer in terms of taking away some risk  
4       and so on.

5                       But it's a market rate house  
6       except for free land. So if it's a, if you  
7       can build a nice house for \$200,000 and it  
8       would be 240 or 250 because of land somewhere  
9       else in the City, the land would be free and  
10      you'd get in there at that level.

11                      Right now we're thinking the  
12      market is closer to the New Homes level where  
13      the housing is going to have a bottom price  
14      of \$110,000 for a single-family house with a  
15      \$40,000, up to \$40,000 of City money. Some  
16      to the Developer and some to the buyer.

17                      That means that if you are tied  
18      in with the Department of Housing you're  
19      talking to the right people who are going to  
20      be in the middle of almost every housing  
21      development in this area for the next  
22      probably five years.

23                      After five years I think the  
24      market, if it's successful the market will

1       move up, and then you'll want to find a way  
2       of working with Planning and Housing to track  
3       the private developers that are coming in  
4       with or without TIF assistance.

5                       But for right now, for the next  
6       five years, you're housing relationship I  
7       think should hold. I don't know if the staff  
8       of Planning would like to add anything to  
9       that.

10                      MR. WILSON: Mr. Chairman. One of the  
11       things that the community finds that in  
12       having an appreciation for, well, first of  
13       all let me back up a little. I'm Chairman of  
14       the Englewood Conservation Community  
15       Council. So we are dealing with the  
16       community that have not been without a plan.

17  
18                      And there are certain values that  
19       have come out of these two urban renewal  
20       plans for that designated area. R47, 63<sup>rd</sup>  
21       and Halstead and R31 in southeast Englewood.  
22       That advantage have presented an opportunity  
23       to anchor some of the basis for good housing  
24       development.

1                   Relative to the other south  
2 program that could take place in the  
3 community it's also designated as an  
4 enterprise community of the EZC Coordinating  
5 Council Empowerment Zone Program.

6                   And three agencies that are  
7 identified that's having a cooperative  
8 relationship to further impact the area. If  
9 you notice to the north where Sherman Park is  
10 identified up there, that little boundary  
11 goes a little across the street into what is  
12 called New City Area.

13                   And the rational in that is that  
14 New City and Phillip Park is a part of the  
15 Enterprise Community of Englewood. Although  
16 they are not a part of the Conservation Area.  
17 And we did not want to have any apparent  
18 exclusion of our neighbors who are involved  
19 with another kind of plan for the community.

20                   Therefore, we have a commonness  
21 with that area and that are is also within  
22 the 47<sup>th</sup> and Halstead Area to be designated  
23 as a TIF. And then the Fuller Park Area to  
24 the northeast at 55<sup>th</sup> and Dan Ryan you

1       presently have existing there a commercial  
2       TIF, which is going to be suffering because  
3       of the loss of the public housing on State  
4       Street that was supportive of that market.

5                   And we might find ourselves in  
6       the situation of having to develop some kind  
7       of commercial strategy to support infill  
8       housing in Fuller Park as well as New City  
9       which would be associated with the  
10      Enterprise portion you know, of the Plan.

11                   I was pleased as I read through  
12      this whole document here, I was pleased to  
13      see the amount of committed dollars for  
14      capital improvement that's presently exist  
15      and also dollars that's committed for a  
16      ground fill fund, that would improve the  
17      program and projects of the Chicago Park  
18      District and the Board of Education and  
19      establishing these green park and school  
20      programs.

21                   The reason you hear some feedback  
22      of overcrowding in many of the schools is  
23      because Englewood house not just the  
24      residential population of Englewood, but we

1 have an overflow into Englewood from the  
2 peripheral communities of Englewood.

3 Auburn Gresham (phonetic), New  
4 City, Fuller Park, the community just to the  
5 west of Englewood, as well as from Washington  
6 Park. So all of these were in, it's a good  
7 educational basis represented in Englewood.

8 I think with the natural growth  
9 of additional housing the accommodation of  
10 educational facilities could be accommodated  
11 there without the further sacrifice of  
12 demolishing old and new homes, you know, to  
13 make that feasible.

14 We are also now, have just  
15 recently received an interest on the part of  
16 the state, with their State Illinois  
17 Advantage Act Program where they are trying  
18 to bring in evaluated resources to existing  
19 programs in the community.

20 Many of the programs and  
21 associate programs are funded through the  
22 State, which includes the enterprise  
23 community dollars and Englewood is actually  
24 State dollars because it could not qualify

1 for Empowerment Zone dollars.

2 But we look at the market of job  
3 opportunities being the New City South Area  
4 and the Stockyards and back of the Yards Area  
5 that's a part of the Workforce Area of the  
6 South Empowerment Zone. So there's a number  
7 of opportunities that now exist there. And we  
8 did hold a meeting with the Consulting and  
9 Development and Planning to get some  
10 introduction as to the economic impact that a  
11 TIF Area would have. And it's pleasing to  
12 know that we would be able to generate from  
13 within that Area tax dollars that would be  
14 committed back to that Area, which would  
15 further enhance the possibilities of what we  
16 are trying to realize with the TIF Plan  
17 Objectives.

18 MR. McCORMICK: Yeah, that is good to  
19 hear. I mean, my title, since I'm Financial  
20 Manager for TIF and I mean here this, I mean,  
21 to me with the declining EAV, you know, four  
22 out of five or five out of five years,  
23 everything you mentioned to get a turnaround  
24 situation where commercial housing more than

1 anything else to start getting this EAV  
2 rising you know, with the new development and  
3 housing going in, allows you to leverage.

4 I mean they mention the TIF NIF  
5 program. What you have to do there is start  
6 showing a turnaround of EAV you know, or the  
7 incremental taxes to feed off of that. So, I  
8 mean we have a situation here once that  
9 starts to kick in there's other programs that  
10 would go along with it.

11 And you know, because in a lot of  
12 the TIFs we look at, it's a case of the EAV  
13 going up but not according to the rest of the  
14 City things like this. Here you've had  
15 declining. So I think everything you've got  
16 going for you here, once that starts to kick  
17 in and as Steve mentioned the Department of  
18 Housing Plans, you're not going to really  
19 have TIF dollars per se.

20 I mean some of them can you know,  
21 in some of the housing things that we've  
22 done, the development itself will create  
23 dollars, you know, to be mixed in with other  
24 subsidies to do housing.

1                   But in general, I think once you  
2 start to build up steam with this you're  
3 going to start seeing this increment come in,  
4 which, you know, for TIF NIF program, other  
5 types of development, you know, it'll start  
6 you know, building up and you'll be doing  
7 more and more as you go on.

8                   So the other things you mentioned  
9 are very encouraging you know, to foster this  
10 type of development.

11                   MR. WILSON: One of the last things  
12 that I didn't mention was the new Kennedy  
13 King College that's scheduled to come in.  
14 Recently the Chicago Development Commission  
15 and the Building Commission approved the use  
16 of the northeast corner of 63<sup>rd</sup> and Halstead  
17 for the Channel 20 and the Theater.

18                   MR. McCORMICK: Okay.

19                   MR. WILSON: That could further  
20 enhance a commercial development in the  
21 northwest quadrant, which means that people  
22 would see 63<sup>rd</sup> and Halstead somewhat like the  
23 old days where you could come out to the  
24 theater.

1 MR. McCORMICK: Sure.

2 MR. WILSON: First class restaurants,  
3 and give some kind of attraction to tourism.  
4 Cause after all you've got to realize  
5 Englewood is sandwiched between Midway  
6 Airport and the Chicago Skyway, which is the  
7 gateway to -- and Hammond and all of those.

8 And we want to capitalize on all  
9 of those opportunities as we move forward.  
10 So we are very happy with seeing this come in  
11 as it is and we feel that the anchors that we  
12 have there now from other funding sources of  
13 capital improvement programs and all will  
14 further enhance the realization of what the  
15 objectives of this TIF Plan. So.

16 MR. McCORMICK: Any other questions?

17 MS. MAREK: Are there any other  
18 adjacent TIFs?

19 MR. STAMM: I think that -- Only one  
20 existing, Englewood Mall set around 63<sup>rd</sup> and  
21 Halstead, an existing TIF. It's kind of a --  
22 for us. And then another proposed TIF at  
23 47<sup>th</sup> and Halstead abuts along Garfield.  
24 That's why we took this little stretch on the

1 north side of Garfield because the 47<sup>th</sup> and  
2 Halstead boundaries stopped here and they  
3 take I think the rest of Garfield.

4 They wanted to be able to have  
5 the whole corridor in some TIF. And then it  
6 also abuts along Halstead here, directly  
7 here. And that's it for adjacent TIFs.

8 MR. McCORMICK: Any additional  
9 questions? If there are no further questions  
10 I will entertain a motion that this Joint  
11 Review Board finds that the Proposed  
12 Redevelopment Plan, Englewood Neighborhood  
13 Tax Increment Financing Redevelopment  
14 Project Area satisfies the Redevelopment  
15 Plan Requirements under the TIF Act the  
16 Eligibility Criteria defined in 11-74.4-3 of  
17 the TIF Act and Objectives of the TIF Act and  
18 that based on such findings approve such  
19 Proposed Plan and the Designation of such  
20 Area as a Redevelopment Project Area under  
21 the TIF.

22 Is there a motion?

23 MR. WILSON: I so move, Mr. Chairman.

24 MR. McCORMICK: Is there a second?

1 MS. MAREK: Second.

2 MR. McCORMICK: If there is no  
3 further discussion all in favor please vote  
4 by saying aye.

5 (Chorus of ayes.)

6 All opposed please vote by saying  
7 nay. Let the record reflect the Joint Review  
8 Board's approval of the Proposed Englewood  
9 Neighborhood Plan Redevelopment Plan,  
10 Designation of the Englewood Neighborhood  
11 Tax Increment Financing Redevelopment  
12 Project Area as a Redevelopment Project Area  
13 under the Act.

14 Before we adjourn what I'd like  
15 to do is thank Henry Wilson for appearing as  
16 the Public Member and it's encouraging you  
17 know, your statements, you know, but your  
18 time out is greatly appreciated. And you  
19 know clarifying other things involved with  
20 this.

21 I'd like to move that we adjourn.

22 MS. MAREK: So moved.

23 MR. WILSON: So moved.

24 MS. MAREK: Oh, second.

1                   MR. McCORMICK:   Second.   Thank you.  
2                               (Whereupon the meeting adjourned  
3                               at 10:45 a.m.)
