UTILIZING JOC FOR CITY CONSTRUCTION PROJECTS

For all proposed projects please complete items 1 and 2 below. As appropriate, complete items 3, 4 and 5.

(Attach to the MOA)

1. Please describe the major features of the project:

The scope of work to be performed under this sub-order shall include fourteen hundred square yards of granite paver removal and disposal, and installation of two thousand linear feet of concrete for the raised planters.

2. Please explain why this project could not be bid using the City's traditional bid process and the need to use the JOC procurement system:

The J.O.C. procurement system is advantageous due to the minimal scope of work for this project. All items to be constructed under this sub-order must be completed in 2003. If the traditional bid process was used this completion date would not be met.

3. If this project is a one trade project, please provide additional explanation of why it would be in the City's best interest to do the project under JOC:

Not Applicable

4. If it is anticipated that over 25% of the project will be non-prepriced, please provide an explanation on why JOC should be used:

Not Applicable

5. If some elements of the proposed JOC project scope of work are covered by City Term Agreements, these elements should be removed from the JOC project scope of work. If it is not desirable to do so, please explain:

Purchasing has determined Landscape Term Agreements can not be used for the purpose of construction.
