DPD Recommendations

- The proposal will not adversely affect the continued industrial viability of the North Branch Industrial Corridor (Section 17-13-0403).
- The total number of employees within the district will not be affected by the proposal as approximately 44 percent (31,500 square feet) of the building is currently vacant. Additional jobs will be created if/when the remaining tenant spaces are leased. There will be no adverse effects on the operation of any other existing firms (Section 17-13-0403-B).
- The proposed use is consistent with other developments in the area and is compatible with the other developments adjacent to the site (Section 17-13-0308-B).
- The commercial development is compatible with the surrounding commercial uses in the larger community area (Section 17-13-0308-C).
- The requested C2-3 zoning is compatible with the surrounding zoning districts in the immediate area including M3-3 to the north, PD 1493 (C3-3 base zoning) to the east, and PD 1049 (C3-3 base zoning) to the south (Section 17-13-0308-D).
