

COVID-19 Response Bureau Testing and Laboratory-Based Surveillance

November 20, 2020

Every week, we track the volume of tests performed across the City, as well as what type of healthcare provider is ordering those tests.

Testing volume by ordering provider

MMWR 45-48 = November
 MMWR 41-44 = October
 MMWR 36-40 = September
 MMWR 32-36 = August

MMWR 27-31 = July
 MMWR 23-27 = June
 MMWR 18-23 = May
 MMWR 14-18 = April

CDPH is also one of over 5,000 providers performing COVID-19 testing in Chicago. We aim to serve the people who need it most, especially those from disadvantaged communities who are hardest hit by COVID-19, especially communities of color.

We closely monitor the demographics (e.g. age, race, ethnicity, ZIP code) of individuals using our community-based testing sites, and adjust our targeting as needed to reach the communities that need it most.

 **Race and ethnicity of individuals using CDPH Community Based Testing Sites last week (November 8-14, 2020)**
